FORM 10-Q

(Mark One)

QUARTERLY REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the quarterly period ended June 30, 2017

TRANSITION REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the transition period _____ to _____

Commission file number 001-08675

UNITED STATES ANTIMONY CORPORATION

(Exact name of registrant as specified in its charter)

Montana

(State or other jurisdiction of incorporation or organization)

81-0305822

(I.R.S. Employer Identification No.)

P.O. Box 643, Thompson Falls, Montana

(Address of principal executive offices)

59873

(Zip code)

Registrant's telephone number, including area code: **(406) 827-3523**

Indicate by check mark whether the issuer (1) filed all reports required to be filed by Section 13 or 15(d) of the Exchange Act during the past 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

YES No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

YES No

Indicate by check mark whether the registrant is a shell company as defined by Rule 12b-2 of the Exchange Act.

YES No

At August 14, 2017, the registrant had outstanding 67,488,153 shares of par value \$0.01 common stock.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/> (Do not check if a smaller reporting company)	Smaller reporting company	<input checked="" type="checkbox"/>
		Emerging growth company	<input type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

PART I - FINANCIAL INFORMATION, CONTINUED:

**United States Antimony Corporation and Subsidiaries
Notes to Consolidated Financial Statements (Unaudited)**

1. Basis of Presentation:

The unaudited consolidated financial statements have been prepared by the Company in accordance with accounting principles generally accepted in the United States of America for interim financial information, as well as the instructions to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of the Company's management, all adjustments (consisting of only normal recurring accruals) considered necessary for a fair presentation of the interim financial statements have been included. Operating results for the three and six month periods ended June 30, 2017 are not necessarily indicative of the results that may be expected for the full year ending December 31, 2017.

For further information refer to the financial statements and footnotes thereto in the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

Certain consolidated financial statement amounts for the three and six month periods ended June 30, 2016, have been reclassified to conform to the 2017 presentation. These reclassifications had no effect on the net income (loss) or cash flows or accumulated deficit as previously reported.

Going Concern Consideration

At June 30, 2017, our financial statements show that we have a negative working capital of approximately \$1.9 million and an accumulated deficit of approximately \$25.8 million. In addition, we have incurred losses for the prior three years. These factors indicate that there may be doubt regarding our ability to continue as a going concern for the next twelve months.

During the past twelve months, the price of antimony has increased from a low of \$2.81 per pound to an average price of \$4.11 for the second quarter of 2017. We have gross profit and a positive cash flow from our U.S. operations at this price. Our operations in Mexico are still in a transitional phase since the loss of our raw material supply from Hillgrove of Australia. We are focusing our production at our Wadley mine to increase grade and output, and we have recently seen ore from there assaying 50% antimony. We are also trying new production techniques, and have found that we can process direct shipping ore successfully at our Madero mill which will result in a reduction in our operating costs in Mexico going forward.

We have reduced costs at our Mexico locations, most notably a reduced monthly lease payment of \$11,600 for the Wadley mine from \$23,200 one year ago, and reduced cost for labor at the same mine. We have also reduced administrative costs by approximately 18% from the prior year for the second quarter at the corporate level. Our capital outlay should be minimal in the near future; and we completed paying for the Los Juarez mining concessions in 2016 which were a major outlay in prior years.

Our zeolite operations continue to operate profitably and provide cash to our operations. We are aggressively seeking new markets for our zeolite products, and we now have an outside sales staff that is working to obtain new customers and have had some success.

We believe that the combination of the above will enable us to stay in operation and meet our financial obligations for the next twelve months and further.

PART I - FINANCIAL INFORMATION, CONTINUED:

United States Antimony Corporation and Subsidiaries

Notes to Consolidated Financial Statements (Unaudited), Continued:

2. Income (Loss) Per Common Share:

Basic earnings per share is calculated by dividing net income (loss) available to common stockholders by the weighted average number of common shares outstanding during the period. Diluted earnings per share is calculated based on the weighted average number of common shares outstanding during the period plus the effect of potentially dilutive common stock equivalents, including warrants to purchase the Company's common stock and convertible preferred stock. Management has determined that the calculation of diluted earnings per share for the three and six month periods ended June 30, 2017 and June 30, 2016, is not applicable since any additions to outstanding shares related to common stock equivalents would be anti-dilutive.

As of June 30, 2017 and 2016, the potentially dilutive common stock equivalents not included in the calculation of diluted earnings per share as their effect would have been anti-dilutive are as follows:

	<u>June 30, 2017</u>	<u>June 30, 2016</u>
Warrants	250,000	250,000
Convertible preferred stock	1,751,005	1,751,005
Total possible dilution	<u>2,001,005</u>	<u>2,001,005</u>

3. Inventories:

Inventories at June 30, 2017 and December 31, 2016 consisted primarily of finished antimony products, antimony metal, antimony ore, and finished zeolite products that are stated at the lower of first-in, first-out cost or estimated net realizable value. Finished antimony products, antimony metal and finished zeolite products costs include raw materials, direct labor and processing facility overhead costs and freight. Inventory at June 30, 2017 and December 31, 2016, is as follows:

	<u>June 30,</u> <u>2017</u>	<u>December 31,</u> <u>2016</u>
Antimony Metal	\$ 37,397	\$ 112,300
Antimony Oxide	357,996	326,126
Antimony Concentrates	10,006	30,815
Antimony Ore	154,973	181,815
Total antimony	<u>560,372</u>	<u>651,056</u>
Zeolite	246,069	204,581
	<u>\$ 806,441</u>	<u>\$ 855,637</u>

PART I - FINANCIAL INFORMATION, CONTINUED:

United States Antimony Corporation and Subsidiaries
Notes to Consolidated Financial Statements (Unaudited), Continued:

4. Accounts Receivable and Due to Factor:

The Company factors designated trade receivables pursuant to a factoring agreement with LSQ Funding Group L.C., an unrelated factor (the "Factor"). The agreement specifies that eligible trade receivables are factored with recourse. We submit selected trade receivables to the factor, and receive 83% of the face value of the receivable by wire transfer. The Factor withholds 15% as retainage and 2% as a servicing fee. Upon payment by the customer, we receive the remainder of the amount due from the factor. The 2% servicing fee is recorded on the consolidated statement of operations in the period of sale to the factor. John Lawrence, CEO, is a personal guarantor of the amount due to Factor.

Trade receivables assigned to the Factor are carried at the original invoice amount less an estimate made for doubtful accounts. Under the terms of the recourse provision, the Company is required to reimburse the Factor, upon demand, for factored receivables that are not paid on time. Accordingly, these receivables are accounted for as a secured financing arrangement and not as a sale of financial assets. The allowance for doubtful accounts is based on management's regular evaluation of individual customer's receivables and consideration of a customer's financial condition and credit history. Trade receivables are written off when deemed uncollectible. Recoveries of trade receivables previously written off are recorded when received. Interest is not charged on past due accounts.

We present the receivables, net of allowances, as current assets and we present the amount potentially due to the Factor as a secured financing in current liabilities.

Accounts Receivable	June 30, 2017	December 31, 2016
Accounts receivable - non factored	\$ 370,414	\$ 401,720
Accounts receivable - factored with recourse	170,870	150,399
Accounts receivable - net	<u>\$ 541,284</u>	<u>\$ 552,119</u>

5. Commitments and Contingencies:

In June of 2013, the Company entered into a lease to mine antimony ore from concessions located in the Wadley Mining district in Mexico. The lease calls for a mandatory term of one year and, as of June 30, 2017, requires payments of \$10,000 plus a tax of \$1,600 per month. The lease is renewable each year with a 15 day notice to the lessor, and agreement of terms. The lease is scheduled for renewal in June 2018.

PART I - FINANCIAL INFORMATION, CONTINUED:

**United States Antimony Corporation and Subsidiaries
Notes to Consolidated Financial Statements (Unaudited), Continued:**

6. Notes Payable to Bank:

At June 30, 2017 and December 31, 2016, the Company had the following notes payable to bank:

	<u>June 30, 2017</u>	<u>December 31, 2016</u>
Promissory note payable to First Security Bank of Missoula, bearing interest at 3.150%, payable on demand, collateralized by a lien on Certificate of Deposit	\$ 92,145	\$ 76,350
Promissory note payable to First Security Bank of Missoula, bearing interest at 3.150%, payable on demand, collateralized by a lien on Certificate of Deposit	99,999	90,967
Total notes payable to the bank	<u>\$ 192,144</u>	<u>\$ 167,317</u>

These notes are personally guaranteed by John C. Lawrence the Company's President and Chairman of the Board of Directors. The maximum amount available for borrowing under each note is \$99,999.

7. Long – Term Debt:

Long-Term debt at June 30, 2017 and December 31, 2016 is as follows:

	<u>June 30, 2017</u>	<u>December 31, 2016</u>
Note payable to First Security Bank, bearing interest at 6%; payable in monthly installments of \$917; maturing September 2018; collateralized by equipment.	\$ 13,226	\$ 18,245
Note payable to Cat Financial Services, bearing interest at 6%; payable in monthly installments of \$1,300; maturing August 2019; collateralized by equipment.	33,954	40,556
Note payable to Wells Fargo Bank, bearing interest at 4%; payable in monthly installments of \$477; maturing December 2016; collateralized by equipment.	-	473

Thereafter	544,740
	<u>\$ 1,804,304</u>

8. Hillgrove Advances Payable

On November 7, 2014, the Company entered into a loan and processing agreement with Hillgrove Mines Pty Ltd of Australia (Hillgrove) by which Hillgrove will advance the Company funds to be used to expand their smelter in Madero, Mexico, and in Thompson Falls, Montana, so that they may process antimony and gold concentrates produced by Hillgrove's mine in Australia. The agreement requires that the Company construct equipment so that it can process approximately 200 metric tons of concentrate initially shipped by Hillgrove, with a provision so that the Company may expand to process more than that. The parties agreed that the equipment will be owned by USAC and USAMSA. The final terms of when the repayment takes place have not yet been agreed on. The agreement called for the Company to sell the final product for Hillgrove, and Hillgrove to have approval rights of the customers for their products. The agreement allows the Company to recover its operating costs as approved by Hillgrove, and to charge a 7.5% processing fee and a 2.0% sales commission. The initial term of the agreement is five years; however, Hillgrove may suspend or terminate the agreement at its discretion. The Company may terminate the agreement and begin using the furnaces for their own production if Hillgrove fails to recommence shipments within 365 days of a suspension notice. At June 30, 2017, the net amount due to Hillgrove for advances was \$1,134,201. As of June 30, 2107, repayment of the advances is not expected to occur within the next twelve months so the balance is classified as a long term liability.

10. Related Party Transactions:

During the three and six months ended June 30, 2017 and 2016, the Chairman of the audit committee and compensation committee received \$4,500 and \$9,000, and \$9,000 and \$18,000, respectively, for services performed. See Note 12 for shares of common stock issued to directors.

During the three and six months ended June 30, 2017 and 2016, the Company paid \$2,480 and \$5,054, and \$2,444 and \$4,924, respectively, to John Lawrence, President and Chief Executive Officer, as reimbursement for equipment used by the Company.

11. Income Taxes:

During the six months ended June 30, 2017 and the year ended December 31, 2016, the Company determined that a valuation allowance equal to 100% of any deferred tax asset was appropriate, as management of the Company cannot determine that it is more likely than not the Company will realize the benefit of a net deferred tax asset. The net effect is that the deferred tax asset as of December 31, 2016, and any deferred tax assets that may have been incurred since then, are fully reserved for at June 30, 2017.

Management estimates the effective tax rate at 0% for the current year.

PART I - FINANCIAL INFORMATION, CONTINUED:

**United States Antimony Corporation and Subsidiaries
Notes to Consolidated Financial Statements (Unaudited), Continued:**

11. Income Taxes, Continued:

In 2015, the Mexican tax authority ("SAT") initiated an audit of the USAMSA's 2013 income tax return. In October 2016, as a result of its audit, SAT assessed the Company \$13.8 million pesos, which was approximately \$666,400 in U.S. Dollars ("USD") as of December 31, 2016. Approximately \$285,000 USD of the total assessment is interest and penalties. SAT's assessment is based on the disallowance of specific costs that the Company deducted on the 2013 USAMSA income tax return. These disallowed costs were incurred by the Company for USAMSA's business operations. SAT claims that the costs were not deductible or were not supported by appropriate documentation. At June 30, 2017, the assessed amount is \$762,000 in U.S. dollars.

Management has reviewed the assessment notice from SAT and believes numerous findings have no merit. The Company has engaged accountants and tax attorneys in Mexico to defend its position. An appeal has been filed.

At December 31, 2016, management has estimated possible outcomes for this assessment and believes it will ultimately pay an amount ranging from 30% of the total assessment to the total assessed amount. The Company's agreement with the tax professionals is that the professionals will receive 30% of the amount of tax relief they are able to achieve.

At December 31, 2016, the Company accrued a potential liability of \$410,510 USD of which \$285,048 is for unpaid income taxes, \$75,510 is for interest expense, and \$49,952 is for penalties. The amount accrued represents management's best estimate of the amount that will ultimately be paid. The outcome could vary from this estimate. At June 30, 2017, the Company recognized a \$51,642 increase due to the change in exchange rate. Fluctuation in exchange rates has an ongoing impact on the amount the Company will pay in U.S. dollars.

If an issue addressed during the SAT audit is resolved in a manner inconsistent with management expectations, the Company will adjust its net operating loss carryforward, or accrue any additional penalties, interest, and tax associated with the audit. The Company's tax professionals in Mexico have reviewed and filed tax returns with the SAT for 2014 and 2015, and have advised the Company that they do not expect the Company to have a tax liability for those years relating to similar issues.

12. Stockholder's Equity:

Issuance of Common Stock for Payable to Board of Directors

During the six months ended June 30, 2016, the Board of Directors was issued a total of 550,000 shares of common stock for \$137,500 in directors' fees that were payable at December 31, 2015. In addition, the Company accrued \$75,000 in directors' fees payable as of June 30, 2016, that will be paid in common stock.

During the six months ended June 30, 2017, the Board of Directors was issued a total of 421,875 shares of common stock for \$168,750 in directors' fees that were payable at December 31, 2016. In addition, the Company accrued \$87,500 in directors' fees payable as of June 30, 2017, that will be paid in common stock.

Notes to Consolidated Financial Statements (Unaudited), Continued:

13. Business Segments:

The Company is currently organized and managed by four segments, which represent our operating units: United States antimony operations, Mexican antimony operations, precious metals recovery and United States zeolite operations.

The Madero smelter and Puerto Blanco mill at the Company's Mexico operation brings antimony up to an intermediate stage, which is typically sold directly or shipped to the United States operation for finishing and sales at the Thompson Falls, Montana plant. The precious metals recovery plant is operated in conjunction with the antimony processing plant at Thompson Falls, Montana. The Zeolite operation produces Zeolite near Preston, Idaho. Almost all of the sales of products from the United States antimony and Zeolite operations are to customers in the United States.

Disclosure of the activity relating to our precious metals recovery requires that it be reported as a separate business segment. The prior period comparative information has been reclassified to reflect this change.

Segment disclosure regarding sales to major customers is located in Note 9.

ITEM 2. Management's Discussion and Analysis of Results of Operations and Financial Condition

General

Certain matters discussed are forward-looking statements that involve risks and uncertainties, including the impact of antimony prices and production volatility, changing market conditions and the regulatory environment and other risks. Actual results may differ materially from those projected. These forward-looking statements represent our judgment as of the date of this filing. We disclaim, however, any intent or obligation to update these forward-looking statements.

PART I - FINANCIAL INFORMATION, CONTINUED:

ITEM 2. Management's Discussion and Analysis of Results of Operations and Financial Condition, continued:

The Mexico non-production costs for the three and six months ending June 30, 2017, are primarily due to holding costs from inactivity at the Los Juarez, Guadalupe, and Soyatal mines and the Puerto Blanco mill. The loss of production at the Madero smelter from transitioning to Mexican raw material due to the closing of the Hillgrove mine in Australia and the subsequent loss of Hillgrove raw material contributed to non-production costs during the six months ending June 30, 2017.

Company-Wide

For the second quarter of 2017, we recognized a net loss of \$16,955 on sales of \$2,838,480, compared to a net loss of \$156,670 in the second quarter of 2016 on sales of \$3,014,394. This is a decrease in the loss for the period of 89%, and is significant progress in a corporate turnaround. For the six month period ending June 30, 2017, we incurred a net loss of \$408,258 on sales of \$5,457,811, compared to a net loss of \$345,276 for the same period in 2016. The loss in the second quarter of 2017 and the six months then ended was primarily due to the loss of raw material from Hillgrove Mines of Australia. We also recognized approximately \$124,732 of settlement costs related to our precious metals production during the first quarter of 2017, and we incurred a foreign exchange loss of \$51,642 related to our Mexican tax liability. Hillgrove has given us permission to use the furnaces financed by them and that were dedicated to processing Hillgrove concentrates.

Depreciation and amortization for the quarter and six months ending June 30, 2017, was \$214,375 and \$430,050, respectively.

For the second quarter of 2017, EBITDA was \$197,420 compared to EBITDA of \$68,780 for the same period of 2016.

For the second quarter of 2017, the general and administrative expenses were \$236,482 compared to \$270,514 for the same period of 2016.

Antimony

We began the mining and processing of ore from our own Mexican mines during Q1 of 2017. Producing from our own Mexican mines will allow the Company to benefit from 100% of the price increases rather than a processing fee and a small percent of the price increases.

1. The sale of antimony during Q2 2017 was 505,356 pounds compared to 732,802 pounds during the same period in 2016.
2. The sale of antimony during the first six months of 2017 was 1,053,206 pounds compared to sales of 1,645,643 pounds for the same period of 2016.
3. The reduction in sales was due to the loss of the Hillgrove production from concentrates which ended in late 2016.
4. The average sales price of antimony during Q2 2017 was \$4.11 per pound compared to \$2.81 during the same period in 2016, an increase of 46%.
5. The average sale price of antimony during the first six months of 2017 was \$3.86 compared to \$2.79 for the same period of 2016, an increase of 38%.
6. The decrease in production was offset by higher sales prices and better margins on production from our own mined ore.
7. The Mexican non-operating production costs were \$79,216 for Q2 2017 compared to \$151,612 for the same period in 2016, a decrease of 48%.

PART I - FINANCIAL INFORMATION, CONTINUED:

ITEM 2. Management's Discussion and Analysis of Results of Operations and Financial Condition, continued:

8. The Mexican non-production costs were \$164,472 for the first six months of 2017 compared to \$337,337 for the same period in 2016, a decrease of 51%.
9. The decrease in Mexican non-operating costs was due to metering funds to select operations in Mexico.

The metallurgical problems with the Los Juarez ore have been solved, and we are processing the ore presently in inventory. As soon as we are permitted, we will complete construction of our leach circuit at the Puerto Blanco mill.

At the Wadley mine, production is being increased with more miners. The use of pneumatic hammers is planned in lieu of explosives. Wadley is our main producer of Mexican ore with some 90 men underground. The tonnage and grade is being increased, and some of the ore contains up to 50 percent antimony.

Powder magazines are being built at the Soyatal mine. We will use the Los Juarez explosives license to mine direct shipping ore for smelter feed at Madero.

The access road to Guadalupe is being repaired to re-start production.

A 400 ton mill test of Los Juarez ore has indicated the necessity of a cyanide leach circuit for the mill tailings. With the leach circuit, the estimated gross value of the ore will be approximately \$125.00 at current precious metal prices.

Production changes at the Madero smelter have cut the cost of fuel by 50%, electricity by 55%, and reagents by 75%.

Precious Metals

The caustic leach of flotation concentrates from Los Juarez was successful, and 400 metric tons were run that indicate that a cyanide leach circuit is necessary to increase the recoveries of precious metals from mill tailings.

ITEM 2. Management's Discussion and Analysis of Results of Operations and Financial Condition, continued:

Bear River Zeolite (BRZ)

During Q2 2017, BRZ sold 3,422 tons of zeolite compared to 4,218 tons in the same period of 2016, down 796 tons (19%). The decrease in tonnage was due to required maintenance.

We realized a net income of \$129,426 from zeolite sales in Q2 of 2017, compared to \$100,471 for the same period in 2016. The increase in the profit from our zeolite operations was \$28,955 (29%). The increase in profit was attributable to overall better plant efficiency. We realized net income of \$215,630 from zeolite sales during the first six months of 2017, compared to \$130,308 for the same period in 2016. The increase in the profit from our zeolite operations was \$85,332 (65%) and was attributable to overall better plant efficiency.

We realized an EBITDA from zeolite sales for Q2 2017 of \$179,225, compared to \$150,072 for the same period in 2016, an increase of \$29,400 (19%). We realized an EBITDA from zeolite sales for the six months ended June 30, 2017 of \$315,430, compared to \$236,908 for the same period in 2016, an increase of \$78,522 (33%).

Our new sales program for zeolite products has two field representatives and a research person that prepares sales brochures and literature. At this time this effort is adding new customers. Increased production at our zeolite plant will enable us to provide timely product deliveries to our customers.

Financial Position

Financial Condition and Liquidity

	<u>June 30, 2017</u>	<u>December 31, 2016</u>
Current Assets	\$ 1,655,321	\$ 1,692,555
Current liabilities	(3,598,492)	(3,382,123)
Net Working Capital	<u>\$ (1,943,171)</u>	<u>\$ (1,689,568)</u>

	<u>Six Months Ended June 30, 2017</u>	<u>Six Months Ended June 30, 2016</u>
Cash provided (used) by operations	\$ 239,654	\$ 256,983
Cash used for capital outlay	(151,244)	(361,003)
Cash provided (used) by financing:		
Proceeds from notes payable to bank	24,827	26,506
Payment of notes payable to bank	-	(30,673)
Principal paid on long-term debt	(106,439)	(36,596)

Our net working capital at June 30, 2017, has decreased by approximately \$250,000 from December 31, 2016. The decrease in our net working capital was primarily due to an increase in various categories of liabilities and expenditures of approximately \$150,000 for capital outlay. We have estimated commitments of \$50,000 for construction and improvements to finish building and installing precious metals leach circuits. We believe that with our current cash balance, along with the future cash flow from operations, we have adequate liquid assets to meet these commitments and service our debt for the next twelve months. We have lines of credit of \$202,000 which have been drawn down by \$192,144 at June 30, 2017. We have a foreign value added tax refund receivable in Mexico of \$365,120 at June 30, 2017. We believe that this refund will be adequate to offset the amount ultimately paid on the Mexican tax assessment (see Note 11 of the consolidated financial statements in Item 1).

PART I - FINANCIAL INFORMATION, CONTINUED:

ITEM 2. Management's Discussion and Analysis of Results of Operations and Financial Condition, continued:

Going Concern Consideration

At June 30, 2017, our financial statements show that we have a negative working capital of approximately \$1.9 million and an accumulated deficit of approximately \$25.8 million. In addition, we have incurred losses for the prior three years. These factors indicate that there may be doubt regarding our ability to continue as a going concern for the next twelve months.

During the past twelve months, the price of antimony has increased from a low of \$2.81 per pound to an average price of \$4.11 for the second quarter of 2017. We have gross profit and a positive cash flow from our U.S. operations at this price. Our operations in Mexico are still in a transitional phase since the loss of our raw material supply from Hillgrove of Australia. We are focusing our production at our Wadley mine to increase grade and output, and we have recently seen ore from there assaying 50% antimony. We are also trying new production techniques, and have found that we can process direct shipping ore successfully at our Madero mill which will result in a reduction in our operating costs in Mexico going forward.

We have reduced costs at our Mexico locations, most notably a reduced lease payments of \$11,600 for the Wadley mine from \$23,200 one year ago, and reduced cost for labor at the same mine. We have also reduced administrative costs by approximately 18% for the second quarter at the corporate level. Our capital outlay should be minimal in the near future; and we completed paying for the Los Juarez mining concessions in 2016 which were a major outlay in prior years.

Our zeolite operations continue to operate profitably and provide cash to our operations. We are aggressively seeking new markets for our zeolite products, and we now have an outside sales staff that is working to obtain new customers and have had some success.

We believe that the combination of the above will enable us to stay in operation and meet our financial obligations for the next twelve months and further.

ITEM 3.

None

ITEM 4. Controls and Procedures

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, as appropriate, to allow timely decisions regarding required disclosure. Our chief financial officer conducted an evaluation of the effectiveness of the Company's disclosure controls and procedures (as defined in the Securities Exchange Act of 1934 Rules 13a-15(e) and 15d-15(e)) as of June 30, 2017. It was determined that there were material weaknesses affecting our disclosure controls and procedures and, as a result of those weaknesses, our disclosure controls and procedures were not effective as of June 30, 2017. These material weaknesses are as follows:

- Inadequate design of internal control over the preparation of the financial statements and financial reporting processes;
- Inadequate monitoring of internal controls over significant accounts and processes including controls associated with domestic and Mexican subsidiary operations and the period-end financial reporting process; and
- The absence of proper segregation of duties within significant processes and ineffective controls over management oversight, including antifraud programs and controls.

We are aware of these material weaknesses and will develop procedures to ensure that independent review of material transactions is performed. The chief financial officer will develop internal control measures to mitigate the lack of inadequate documentation of controls and the monitoring of internal controls over significant accounts and processes including controls associated with the period-ending reporting processes, and to mitigate the segregation of duties within significant accounts and processes and the absence of controls over management oversight, including antifraud programs and controls.

We plan to consult with independent experts when complex transactions are entered into.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

There were no significant changes made to internal controls over financial reporting for the quarter ended June 30, 2017 .

PART II - OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

None

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None

Item 3. DEFAULTS UPON SENIOR SECURITIES

The registrant has no outstanding senior securities.

Item 4. MINE SAFETY DISCLOSURES

The information concerning mine safety violations or other regulatory matters required by Section 1503 (a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act and Item 104 of Regulation S-K is included in Exhibit 95 to this Annual Report.

Item 5. OTHER INFORMATION

None

Item 6. EXHIBITS AND REPORTS ON FORM 8-K

Certifications

Certifications Pursuant to the Sarbanes-Oxley Act Reports on Form 8-K None

SIGNATURES

Pursuant to the requirements of Section 13 or 15(b) of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

CERTIFICATIONS

I, John C. Lawrence, President and Chief Executive Officer, certify that:

1. I have reviewed this quarterly report on Form 10-Q of United States Antimony Corporation.
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under my supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to me by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. I have disclosed, based on my most recent evaluation, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Exhibit 95 MINE SAFETY DISCLOSURES

Pursuant to Section 1503(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the "Dodd-Frank Act"), issuers that are operators, or that have a subsidiary that is an operator, of a coal or other mine in the United States are required to disclose in their periodic reports filed with the SEC information regarding specified health and safety violations, orders and citations, related assessments and legal actions, and mining-related fatalities. During the six months ended June 30, 2017, the Company had no material specified health and safety violations, orders or citations, related assessments or legal actions, mining-related fatalities, or similar events in relation to the Company's United States operations requiring disclosure pursuant to Section 1503(a) of the Dodd-Frank Act.
