Section 1 - Registrant's Business and Operations

Item 1.01 Entry into a Material Definitive Agreement.

On March 30th, 2015 Gary Campbell as CEO of Cytta entered into a settlement agreement with EraStar Inc. and its principals whereby they agreed inter alia that,

- a) The EraStar principals are not Officers and Directors of Cytta Corp. ("Cytta") and agree to cease holding themselves out as same and further agree that they immediately relinquish all right, title and interest in and to the Cytta corporate entity and its assets and consent to an Order of the Court declaring same hereunder.
- b) That all parties agree and consent to the mutual rescission and cancellation of the Merger Agreement as of November 3rd, 2014 and consent to an Order of the Court declaring same hereunder.
- c) The Parties agree to the cancellation of all the Cytta Merger shares issued, and Cytta shares issued for services and cancelled pursuant to the Cytta Directors resolution dated November 3rd, 2014 at a Directors meeting of Gary Campbell, Erik Stephansen, and John Dinovo (herein the "Cancelled Shares"), all as further set forth in Exhibit "A" attached hereto and incorporated herein by this reference, and consent to an Order of the Court as required by the Transfer Agent regarding the cancellation hereunder.
- d) EraStar and Cytta hereby agree to the mutual cancellation of the Cytta EraStar Investor Relations contract dated January 7th, 2014 and agree that neither party shall have any further obligation to the other thereunder and that there shall be no liability to the Parties thereunder and EraStar shall agree to the cancellation the Cytta shares paid to EraStar and consent to such cancellation and an Order of the Court as required by the Transfer Agent for cancellation hereunder.

Unfortunately Mr. Jens Dalsgaard passed away before he was personally able to implement the many good faith portions of the Agreement. Cytta is pleased to note that Mr. Steffan Dalsgaard, is providing that ongoing cooperation and assistance in his Father's place.

The above agreement was news released by the Company on March 30th, 2015 see Exhibit 99.1 attached. On May 27th, 2015, Cytta announced the full resumption of its Doctor Direct program utilizing the new CPT remote monitoring codes. See Exhibit 99.2 attached

Cytta's Remote Monitoring Technology and New Billing Codes creates opportunity for Patients and Physicians

Las Vegas, NV. May 27th, 2015 -- Cytta Corp. (OTCQB:CYCA) Cytta is pleased to announce that Cytta's "Doctor Direct" remote patient monitoring system, combined with the new billing/CPT codes for the service, has created the opportunity for real-time patient monitoring and a significant revenue stream to the Physician for providing better quality care.

Utilizing the Doctor Direct sales model Cytta is licensing participating progressive medical practices to incorporate its remote monitoring technology into their continuum of care. With the rapidly growing numbers of very busy medical practitioners looking to expand their practices and revenue streams, while providing improved access and services, this system provides a valuable tool for 24/7 patient care, increased revenue and cost savings.

On January 1st, 2015, the Centers for Medicaid and Medicare (CMS) began reimbursement for a number of telehealth services that the Agency hasn't covered before. This means that physicians now get paid for using Cytta's remote monitoring system to remotely monitoring their patients' health!

The Doctor Direct program system saves busy practitioners time, generates revenue and opens up whole new avenues of care possible in the areas of weight control, diabetes, hypertension and cardio-pulmonary diseases. The scope of what this system makes possible, and what this connectivity will ultimately make possible, is just now emerging. It is easily recognizable that the future of remote medical monitoring will be shaped by the Cytta Connect technology

CMS now includes a provision that would cover remote chronic care management using a new current procedural terminology ("CPT") code, 99490 (with a monthly unadjusted, non-facility fee of \$42.60). This new CPT code can be bundled with the existing CPT code 99091 for collecting and reviewing patient data, which does not require the beneficiary to be present and pays an average monthly fee of \$56.92 to the physician. The final rule also includes a provision that would cover remote-patient monitoring of chronic conditions using existing CPT code 99091 (with a monthly unadjusted, non-facility fee of \$56.92).

The Doctor Direct process has been carefully refined by our expert in house medical advisors, who have defined a sales program that will allow partnering with each and every medical practice. The Doctor Direct program creates a new revenue stream for both Cytta Corp. and our Doctor Direct partners, who will be utilizing Cytta's direct marketing model to provide extraordinary care to their patients.

Cytta is the first Company to combine end to end, all the necessary elements that allow our partnering doctor's to get accurate vital medical data (blood pressure, pulse, weight, O-2 saturation, blood sugar etc.) necessary to make diagnostic medical decisions remotely. The patient's data is collected with accurate, professional, double FDA approved monitors, then wirelessly sent to the physician over an encrypted, secure, HIPPA compliant, special purpose medical cell phone network. The information is stored in a cloud server (also compliant with all federal patient privacy regulations). It is immediately

made available to all the care givers (doctors, nurses, hospitals, clinics) as well as, all important caretakers, including the patient, their family and loved ones.

Cytta Connect's technology will support the Doctor Direct providers in advancing clinical care to help establish high-quality, low-cost care pathways. Cytta Connect will also allow the Doctor Direct providers to extend the reach of their workforce. Cytta Connect technology and services will play a vital supporting role as Primary Care Physicians manage larger clinical teams and patient panels to help improve overall population health.

The Doctor Direct sales process will allow Cytta Connect to streamline and expand our sales and distribution utilizing each and every medical practice as a business hub with their client base as our customers!

Cytta is also extremely pleased to announce that the legal matters resulting from the attempted merger has been resolved completely in Cytta and its management's favor. The resolution means Cytta management is now free to concentrate upon advancing the Company's business with the help and assistance and of the non-offending previous complainants and their clients.

About Cytta Corp.

Cytta Corp. is an open source remote monitoring connectivity system and is known for its Cytta Connect open source WiFi, cellular and satellite smartphone platform, a highly scalable and secure telehealth solution. In addition, Cytta offers specific care solutions such as it's Doctor Direct program and the Hospital CARES re-admission program. Cytta's remote data capture highway, which connects monitoring devices seamlessly to a cloud-based data repository, is fully operational and available to selected healthcare segments. Our remote data capture system works over Cytta's Special Purpose Network utilizing 4G LTE AT&T domestic and international SIMS, a proprietary smartphone based, Mobile, Satellite, and WiFi open source platform, and cloud-based data repository. The Cytta Connect technology automatically connects all remote monitoring devices to Cytta's cloud-based data repository creating real time communication for the Healthcare & Telehealth and is available for use in other industries.

Cytta Corp and EraStar, Inc. Jointly Announce Amicable Settlement Regarding Merger Litigation

LAS VEGAS, NV / ACCESSWIRE / March 31, 2015 / Cytta Corp.

(OTCQB:CYCA:) is extremely pleased to announce that it has executed a mutually amicable global settlement agreement with Las Vegas based EraStar, Inc.

Gary Campbell, CEO of Cytta Corp stated: "We are pleased to announce this settlement agreement with EraStar, Inc. The agreement will allow all the parties to move forward independently with no further disagreements or disputes. Effectively, the settlement agreement returns and reaffirms the general corporate management of each company back to its previously understood directors and officers, and cancels the issuance of all Cytta shares issued to EraStar, Inc. shareholders during the merger process. All parties have also agreed to an immediate non disparagement, and a spirit of positive co-operation moving forward."

Jens Dalsgaard, Chairman of EraStar, Inc. stated: "We are also pleased to settle and end the litigation. Although the proposed merger with Cytta was entered into with excitement good faith, both parties relied on information that was either incomplete or inherently misinterpreted by legal counsel at the time. As a result, erroneous events occurred that caused further contention and miscommunication between all parties. We view this settlement as an extremely positive milestone for all EraStar, Inc. shareholders. We wish Cytta and its shareholders tremendous success. "

About EraStar, Inc.

EraStar, Inc. is a dynamic Las Vegas based marketing business that offers a broad spectrum of services, including Comprehensive Marketing Strategies for Public and Private Institutions, Public Relations and Media Activities, Product Marketing, Support Services, Business Development Consulting, and Lead Generation. EraStar, Inc. currently provides services to variety of clients in a number of industries nationwide.

About Cytta Corp.

Cytta Corp. is an open source remote monitoring ubiquitous connectivity platform known for its highly scalable and secure Healthcare telehealth solutions. In addition to the Doctor Direct program, we are now offering the Cytta Connect technology to the Oil & Gas industry that will make available our remote data capture highway that connects monitoring devices seamlessly to a cloud-based data repository. Our remote data capture system works over our Special Purpose Network utilizing 4G LTE AT&T domestic and international SIMS, a proprietary smartphone based, Mobile, Satellite, and WiFi open source platform, and cloud-based data repository. The CyttaConnect technology automatically connects all remote monitoring devices to Cytta's cloud-based data repository creating real time communication for the Healthcare/Telehealth and Oil & Gas industries.
