Notes to Consolidated Financial Statements (unaudited)

(Amounts in thousands, except share and per share amounts, unless otherwise stated)

Note 1 — Summary of Significant Accounting Policies

Basis of Presentation

The accompanying unaudited, consolidated financial statements for HCI Group, Inc. and its majority-owned and controlled subsidiaries (collectively, the "Company") have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") for interim financial information, and the Securities and Exchange Commission ("SEC") rules for interim financial reporting. Certain information and footnote disclosures normally included in consolidated financial statements prepared in accordance with U.S. GAAP have been omitted pursuant to such rules and regulations. However, in the opinion of management, the accompanying consolidated financial statements reflect all normal recurring adjustments necessary to present fairly the Company's financial position as of March 31, 2017 and the results of operations and cash flows for the periods presented. The results of operations for the interim periods presented are not necessarily indicative of the results of operations to be expected for any subsequent interim period or for the fiscal year ending December 31, 2017. The accompanying unaudited consolidated financial statements and notes thereto should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2016 included in the Company's Form 10-K, which was filed with the SEC on February 22, 2017.

In preparing the interim unaudited consolidated financial statements, management was required to make certain judgments, assumptions, and estimates that affect the reported amounts of assets, liabilities, revenues, expenses and related disclosures at the financial reporting date and throughout the periods being reported upon. Certain of the estimates result from judgments that can be subjective and complex and consequently actual results may differ from these estimates.

Material estimates that are particularly susceptible to significant change in the near term are related to the Company's losses and loss adjustment expenses, which include amounts estimated for claims incurred but not yet reported. The Company uses various assumptions and actuarial data it believes to be reasonable under the circumstances to make these estimates. In addition, accounting policies specific to reinsurance with retrospective provisions, deferred income taxes, and stock-based compensation expense involve significant judgments and estimates material to the Company's consolidated financial statements.

All significant intercompany balances and transactions have been eliminated.

Adoption of New Accounting Standards

Effective January 1, 2017, the Company adopted Accounting Standards Update No. 2016-09, Compensation - Stock Compensation (Topic 718), which amends the accounting for share-based payment transactions including the related income taxes, classification of awards as either equity or liabilities, and classification on the statement of cash flows. Amendments related to the timing of when excess tax benefits are recognized, minimum statutory withholding requirements, and forfeitures, which is applied using a modified retrospective transition method, have no impact on the Company's comparative consolidated financial statements. In addition, the retrospective application of the amendments related to the presentation of employee taxes paid does not have an impact on the Company's comparative consolidated statement of cash flows. Upon adoption of this standard, the Company elected to account for forfeitures of share-based awards when they occur and apply the

HCI GROUP, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (unaudited)

(Amounts in thousands, except share and per share amounts, unless otherwise stated)

amendments related to the presentation of excess tax benefits on the statement of cash flows prospectively. Under the new standard, the Company is required to recognize any excess tax benefits and tax deficiencies in the Company's consolidated statement of income.

Long-Term Debt

Long-term debt is generally classified as a liability and carried at amortized cost, net of any discount and issuance costs. At issuance, a debt instrument with embedded features such as conversion and redemption options is evaluated to determine whether bifurcation and derivative accounting is applicable. If such instrument is not subject to derivative accounting, it is further evaluated to determine if the Company is required to separately account for the liability and equity components.

To determine the carrying values of the liability and equity components at issuance, the Company measures the fair value of a similar liability, including any embedded features other than the conversion option, and assigns such value to the liability component. The liability component's fair value is then subtracted from the initial proceeds to determine the carrying value of the debt instrument's equity component, which is included in additional paid-in capital.

Any embedded feature other than the conversion option is evaluated at issuance to determine if it is probable that such embedded feature will be exercised. If the Company concludes that the exercisability of that embedded feature is not probable, the embedded feature is considered to be non-substantive and would not impact the initial measurement and expected life of the debt instrument's liability component.

Transaction costs related to issuing a debt instrument that embodies both liability and equity components are allocated to the liability and equity components in proportion to the allocation of the proceeds and accounted for as debt issuance costs and equity issuance costs, respectively. Debt issuance costs are capitalized and presented as a deduction from the carrying value of the debt. Both debt discount and deferred debt issuance costs are amortized to interest expense over the expected life of the debt instrument using the effective interest method. Equity issuance costs are a reduction to the proceeds allocated to the equity component.

Common Share Repurchases

The Company primarily repurchases its common stock in the open market through share repurchase programs and from institutional investors in private transactions such as prepaid share repurchase forward contracts and share repurchase agreements.

A prepaid share repurchase forward contract is generally a contract that allows a party to buy from the counterparty a specified number of common shares at a specific time at a given forward price. The Company entered into such a contract and evaluated the characteristics of the forward contract to determine whether it met the definition of a derivative financial instrument pursuant to U.S. GAAP. The Company determined the forward contract is an equity contract on the Company's common shares requiring physical settlement in common shares of the Company. As such, the transaction is recognized as a component of stockholders' equity and there will be no recognition in earnings for changes in fair value in subsequent periods.

HCI GROUP, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements (unaudited)

(Amounts in thousands, except share and per share amounts, unless otherwise stated)

In general, the Company first charges the purchase price or the prepayment amount to additional paid-in capital to the extent available and the remaining balance is charged to retained income. Due to past and recent share repurchases, the Company's additional paid-in capital has been exhausted and shall remain so until the Company fully recoups the total amount charged to retained income.

Reclassifications

Certain reclassifications of prior year amounts have been made to conform to the current year presentation.

Note 2 — Recent Accounting Pronouncements

Accounting Standards Update No. 2017-08. In March 2017, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2017-08 ("ASU 2017-08"), Receivables – Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities, which amends guidance on the amortization period of premiums on certain purchased callable debt securities. Specifically, this update shortens the amortization period of certain purchased callable debt securities to the earliest call date. ASU 2017-08 is effective for the Company beginning with the first quarter of 2019. Early adoption is permitted. The Company is currently evaluating the impact of this guidance on the Company's consolidated financial statements.

Accounting Standards Update No. 2017-05. In February 2017, the FASB issued Accounting Standards Update No. 2017-05 ("ASU 2017-05"), Other Income - Gains and Losses from the Derecognition of Nonfinancial Assets (Subtopic 610-20), which clarifies the scope of asset derecognition guidance and accounting for partial sales of nonfinancial assets. In addition, ASU 2017-15 eliminates the exception in the financial asset guidance for transfers of investments including equity method investments in real estate entities and supersedes the guidance in the Exchanges of a Nonfinancial Asset for a Noncontrolling Ownership Interest subsection (Topic 845). ASU 2017-05 is effective for the Company beginning with the first quarter of 2018. The Company is currently evaluating the impact of this guidance on the Company's consolidated financial statements.

Accounting Standards Update No. 2017-03. In January 2017, the FASB issued Accounting Standards Update No. 2017-03 ("ASU 2017-03"), Accounting Changes and Error Corrections (Topic 250) and Investments - Equity Method and Joint Ventures (Topic 323), which adds and amends SEC paragraphs pursuant to the SEC Staff Announcements at the September 22, 2016 and November 17, 2016 Emerging Issues Task Force meetings. The announcement made at the September 22, 2016 meeting provides the SEC staff view on the disclosure of the impact that recently issued accounting standards will have on a public entity's financial statements when the standards are adopted in a future period. This announcement applies to ASU 2014-09, Revenue from Contracts with Customers (Topic 606); ASU 2016-02, Leases (Topic 842); ASU 2016-13, Financial Instruments - Credit Losses (Topic 326) and any subsequent amendments to guidance in the ASUs that are issued prior to the adoption of the aforementioned ASUs.

Accounting Standards Update No. 2017-01. In January 2017, the FASB issued Accounting Standards Update No. 2017-01 ("ASU 2017-01"), Business Combination (Topic 805), which clarifies the definition of a business and provides a screen to determine when an integrated set of assets and activities is not a business. If the screen is not met, a set must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output to be considered

a business. ASU 2017-01 is effective for the Company beginning with the first quarter of 2018. Early adoption is permitted under certain circumstances. When adopted, this guidance will impact how the Company determines whether a transaction should be accounted for as a business acquisition or disposal in a future period.

Accounting Standard to be Adopted in Fiscal Year 2018

In May 2014, the FASB issued Accounting Standards Update No. 2014-09 ("ASU 2014-09"), Revenue from Contracts with Customers (Topic 606). The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. ASU 2014-09 supersedes the revenue recognition requirements in Topic 605, Revenue Recognition, and most industry-specific guidance throughout the Industry Topics of the Codification. ASU 2014-09 also amends the existing requirements for the recognition of a gain or loss on the transfer of nonfinancial assets that are not in a contract with a customer to be consistent with the guidance in this ASU. ASU 2014-09 permits two methods of adoption: a full retrospective method or a modified retrospective method. The Company is currently evaluating the potential impact of ASU 2014-09 on its consolidated financial statements in preparation for adoption of this standard in its 2018 fiscal year. This standard could impact the timing and amounts of revenue recognized. The Company has identified and reviewed some impacted revenue generating activities in accordance with the five-step revenue recognition model specified by this standard. The Company has not yet selected a transition method. Based on the Company's preliminary assessment, the impact is expected to be immaterial as its primary source of revenue from insurance premiums is not within the scope of this new standard.

Other-than-temporary Impairment

The Company regularly reviews its individual investment securities for other-than-temporary impairment. The Company considers various factors in determining whether each individual security is other-than-temporarily impaired, including-

- the financial condition and near-term prospects of the issuer, including any specific events that may affect its operations or earnings;
- the length of time and the extent to which the market value of the security has been below its cost or amortized cost;
- general market conditions and industry or sector specific factors and other qualitative factors;
- nonpayment by the issuer of its contractually obligated interest and principal payments; and
- the Company's intent and ability to hold the investment for a period of time sufficient to allow for the recovery of costs.

Fixed-maturity Securities

At March 31, 2017, two fixed-maturity securities were considered other-than-temporarily impaired due to their credit risk. The Company intends to hold until maturity these two fixed-maturity securities.

Prior to the sale of one intent-to-sell fixed-maturity security, the Company recognized \$62 of additional impairment loss for this security for the three months ended March 31, 2017.

At March 31, 2016, there were two previously impaired fixed-maturity securities the Company intended to hold until maturity. During the first quarter of 2016, one previously impaired fixed-maturity security the Company intended to hold until maturity was considered to have additional credit related loss. For the three months ended March 31, 2016, the Company recognized \$293 of additional credit related loss in the consolidated statement of income, representing \$26 of additional loss recorded during the period and the reclassification of \$267 previously recorded in other comprehensive income.

Equity Securities

In determining whether equity securities are other-than-temporarily impaired, the Company considers its intent and ability to hold a security for a period of time sufficient to allow for the recovery of cost, the length of time each security has been in an unrealized loss position, the extent of the decline and the near term prospect for recovery. At March 31, 2017, the Company had three equity securities that were other-than-temporarily impaired. This compares with 11 equity securities that were other-than-temporarily impaired at March 31, 2016. The Company recognized impairment losses of \$151 and \$382 in the consolidated statement of income for the three months ended March 31, 2017 and 2016, respectively.

Securities with gross unrealized loss positions at March 31, 2017 and December 31, 2016, aggregated by investment category and length of time the individual securities have been in a continuous loss position, are as follows:

Note 5 — Fair Value Measurements

The Company records and discloses certain financial assets at their estimated fair value. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels as follows:

- Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities.
- Level 2 - Other inputs that are observable for the asset, either directly or indirectly such as quoted prices for identical assets that are not observable throughout the full term of the asset.
- Level 3 - Inputs that are unobservable.

Valuation Methodology

Cash and cash equivalents

Cash and cash equivalents primarily consist of money-market funds. Their carrying value approximates fair value due to the short maturity and high liquidity of these funds.

Available-for-sale securities

Estimated fair values of the Company's available-for-sale securities are determined in accordance with U.S. GAAP, using valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Fair values are generally measured using quoted prices in active markets for identical securities or other inputs that are observable either directly or indirectly, such as quoted prices for similar securities. In those instances where observable inputs are not available, fair values are measured using unobservable inputs. Unobservable inputs reflect the Company's own assumptions about the assumptions that market participants would use in pricing the security and are developed based on the best information available in the circumstances. Fair value estimates derived from unobservable inputs are significantly affected by the assumptions used, including the discount rates and the estimated amounts and timing of future cash flows. The derived fair value estimates cannot be substantiated by comparison to independent markets and are not necessarily indicative of the amounts that would be realized in a current market exchange.

The estimated fair values for securities that do not trade on a daily basis are determined by management, utilizing prices obtained from an independent pricing service and information provided by brokers, which are level 2 inputs. Management reviews the assumptions and methods utilized by the pricing service and then compares the relevant data and pricing to broker-provided data. The Company gains assurance of the overall reasonableness and consistent application of the assumptions and methodologies and compliance with accounting standards for fair value determination through ongoing monitoring of the reported fair values.

Limited Partnership Investments

As described in Note 3 — "Investments" under *Limited Partnership Investments*, the Company has interests in limited partnerships which are private equity funds. Pursuant to U.S. GAAP, these funds are required to use fair value accounting; therefore, the estimated fair value approximates the carrying value of these funds.

Revolving Credit Facility

The interest rate on the Company's revolving credit facility was periodically adjusted based on the LIBOR rate plus a spread. As a result, its carrying value at December 31, 2016 approximated fair value. In February 2017, this credit facility was converted into a 3.95% three-year promissory note. See Note 7 — "Long-Term Debt" under *3.95% Promissory Note*.

Long-term debt

The following table summarizes components of the Company's long-term debt and methods used in estimating their fair values:

	Maturity Date	Valuation Methodology
8% Senior Notes	2020	Closing price listed on the New York Stock Exchange
3.875% Convertible Senior Notes	2019	Discounted cash flow method/Level 3 inputs

Convertible Senior Notes

The Company's Convertible Senior Notes consist of 3.875% Convertible Senior Notes due 2019 ("3.875% Convertible Notes") and 4.25% Convertible Senior Notes due 2037 ("4.25% Convertible Notes"). The 3.875% Convertible Notes were issued in late 2013 in a private offering for an aggregate principal amount of \$103,000. During the first quarter of 2016, the Company repurchased an aggregate of \$13,010 in principal, thereby decreasing the aggregate principal balance of its 3.875% Convertible Notes to \$89,990. On March 3, 2017, the Company issued 4.25% Convertible Notes in a private offering for an aggregate principal amount of \$143,750. The net proceeds of the 4.25% Convertible Notes were \$138,775 after \$4,975 in related issuance and transaction costs, of which \$4,806 was paid during the first quarter of 2017. The following table summarizes the principal and interest payment terms of these Convertible Senior Notes:

Convertible Senior Notes	Interest Payment Terms
3.875% Convertible Notes, due March 15, 2019	Semiannually in arrears: March 15 and September 15
4.25% Convertible Notes, due March 1, 2037	Semiannually in arrears: March 1 and September 1

The Convertible Senior Notes rank equally in right of payment to the Company's existing and future unsecured and unsubordinated obligations. These Convertible Senior Notes do not contain any financial or operating covenants or restrictions on the payments of dividends, the incurrence of indebtedness or the issuance or repurchase of securities by the Company or any of its subsidiaries. The Convertible Senior Notes provide no protection to the note holders in the event of a fundamental change or other corporate transaction involving the Company except those described in each respective indenture. These Convertible Senior Notes do not require a sinking fund to be established for the purpose of redemption. In conjunction with the issuances of the Convertible Senior Notes, the Company entered into prepaid share repurchase forward contracts and share repurchase agreements providing for the repurchase of shares of the Company's common stock. See Note 13 — "Stockholders' Equity" under *Share Repurchase Agreements* and *Prepaid Share Repurchase Forward Contracts* for additional information.

Embedded Conversion Feature

The conversion feature of these Convertible Senior Notes is subject to conversion rate adjustments upon the occurrence of specified events (including payment of dividends above a specified amount) but will not be adjusted for any accrued and unpaid interest.

3.875% Convertible Notes. Since January 2015, the Company's cash dividends on common stock have exceeded \$0.275 per share, resulting in adjustments to the conversion rate of the 3.875% Convertible Notes. Accordingly, as of March 31, 2017, the conversion rate of the Company's 3.875% Convertible Notes was 16.1248 shares of common stock for each \$1 in principal amount, which was the equivalent of approximately \$62.02 per share.

4.25% Convertible Notes. The conversion rate of the 4.25% Convertible Notes is currently 16.2635 shares of common stock for each \$1 in principal amount, which is the equivalent of approximately \$61.49 per share.

The holders of the Convertible Senior Notes may convert all or a portion of their Convertible Senior Notes during specified periods as follows:

(1) during any calendar quarter commencing after the calendar quarter ending on the dates specified in each respective indenture, if the last reported sale price of the Company's common stock for at least 20 trading days during the period of 30 consecutive trading days ending on the last trading day of the immediately preceding calendar quarter is greater than 130% of the conversion price on each applicable trading day; (2) during the five business-day period after any ten consecutive trading-day period in which the trading price per \$1 principal amount of the Convertible Senior Notes is less than 98% of the product of the last reported sale price and the conversion rate on each such trading day; (3) if specified corporate events, including a change in control, occur; or (4) at any time on or after the dates specified in each respective indenture.

The note holders who elect to convert their Convertible Senior Notes in connection with a fundamental change as described in the indentures will be entitled to a "make-whole" adjustment in the form of an increase in the conversion rate. Upon conversion, the Company has options to satisfy its conversion obligation by paying or delivering cash, shares of its common stock or a combination of cash and shares of its common stock. As of March 31, 2017, none of the conditions allowing the holders of either class of the Convertible Senior Notes to convert had been met.

The Company determined that the Convertible Senior Notes' embedded conversion feature is not a derivative financial instrument but rather is required to be separately accounted for in equity because the Company may elect to settle the conversion option entirely or partially in cash. At issuance, the Company accounted for the equity component of the embedded conversion feature as a reduction in the carrying amount of the debt and an increase in additional paid-in capital.

Embedded Redemption Feature – Fundamental Change

The note holders have the right to require the Company to repurchase for cash all or any portion of the Convertible Senior Notes at par prior to the maturity date should any of the fundamental change events described in the indentures occur. The Company concluded that this embedded redemption feature is not a derivative financial instrument and that it is not probable at issuance that any of the specified fundamental change events will occur. Therefore, this embedded redemption feature is not substantive and will not affect the expected life of the liability component.

Embedded Redemption Feature – Put Option of the Note Holder

At the option of the holders of the 4.25% Convertible Notes, the Company is required to repurchase for cash all or any portion of the 4.25% Convertible Notes at par on March 1, 2022, March 1, 2027 or March 1, 2032. The Company concluded that this embedded feature is not a derivative financial instrument. In addition, based on economic factors at the time when the 4.25% Convertible Notes were issued, the Company determined it is probable that the note holders will exercise this option. Thus, the Company amortizes the liability component and related issuance costs associated with the 4.25% Convertible Notes over the period from March 3, 2017 to March 1, 2022. Had a 20-year term been used for the amortization of the liability component and issuance costs, the annual effective interest rate charged to earnings would have been decreased to approximately 5.4%.

The effective interest rates for the 3.875% Convertible Notes and the 4.25% Convertible Notes, taking into account both cash and non-cash components, approximate 8.3% and 7.6%, respectively. As of March 31, 2017, the remaining amortization periods of the debt discounts were expected to be 1.9 years for the 3.875% Convertible Notes and 4.8 years for the 4.25% Convertible Notes.

3.95% Promissory Note

On February 27, 2017, the Company converted its outstanding revolving credit facility of \$9,441 into a three-year mortgage loan primarily collateralized by a retail shopping center in Melbourne, Florida. Shortly after the loan conversion, the Company withdrew an additional amount of \$109, thereby increasing the loan amount to \$9,550. The loan bears a fixed annual interest rate of 3.95%. Approximately \$50 of principal and interest is payable in 35 monthly installments beginning March 17, 2017 plus a final balloon payment of \$8,891 including principal and unpaid interest payable on February 17, 2020. The promissory note may be repaid in part or in full at any time without penalty.

Note 8 — Reinsurance

The Company cedes a portion of its homeowners' insurance exposure to other entities under catastrophe excess of loss reinsurance treaties and two quota share reinsurance agreements, one of which was terminated effective May 31, 2016. Under the terms of the remaining quota share reinsurance agreement effective January 1, 2017, the Company is entitled to a 30% ceding commission on ceded premiums written. The Company remains liable for claims payments in the event that any reinsurer is unable to meet its obligations under the reinsurance agreements. Failure of reinsurers to honor their obligations could result in losses to the Company. The Company evaluates the financial condition of its reinsurers and monitors concentrations of credit risk arising from similar geographic

regions, activities or economic characteristics of the reinsurers to minimize its exposure to significant losses from reinsurer insolvencies. The Company contracts with a number of reinsurers to secure its annual reinsurance coverage, which generally becomes effective June 1st each year. The Company purchases reinsurance each year taking into consideration probable maximum losses and reinsurance market conditions.

The impact of the catastrophe excess of loss reinsurance treaties and two quota share reinsurance arrangements on premiums written and earned is as follows:

	Three Months Ended	
	March 31,	
	2017	2016
Premiums Written:

Net premiums earned	<u>\$ 63,036</u>	<u>\$ 58,447</u>

During the three months ended March 31, 2017 and 2016, there were no recoveries pertaining to reinsurance contracts that were deducted from losses incurred. At March 31, 2017 and December 31, 2016, there were 36 and 35 reinsurers, respectively, participating in the Company's reinsurance program. There were no amounts receivable with respect to reinsurers at March 31, 2017 and December 31, 2016. Thus, there were no concentrations of credit risk associated with reinsurance receivables as of March 31, 2017 and December 31, 2016. In addition, based on the insurance ratings and the financial strength of the reinsurers, management believes there was no credit risk associated with its reinsurers' obligations to perform on any prepaid reinsurance contract as of March 31, 2017 and December 31, 2016.

Certain of the reinsurance contracts include retrospective provisions that adjust premiums, increase the amount of future coverage, or result in a profit commission in the event losses are minimal or zero. These adjustments are reflected in the consolidated statements of income as net reductions in ceded premiums of \$3,322 and \$2,821 for the three months ended March 31, 2017 and 2016, respectively, of which \$576 and \$327 related to the Company's contract with Oxbridge Reinsurance Limited, a related party.

In addition, these adjustments are reflected in other assets and prepaid reinsurance premiums. At March 31, 2017 and December 31, 2016, other assets included \$8,302 and \$5,810, respectively, of which \$1,490 and \$1,043 related to the contract with Oxbridge and prepaid reinsurance premiums included \$2,983 and \$2,152, respectively, of which \$467 and \$338 related to the contract with Oxbridge. Management believes the credit risk associated with the collectability of these accrued benefits is minimal as the amount receivable is concentrated with one reinsurer and the Company monitors the creditworthiness of this reinsurer based on available information about the reinsurer's financial position.

Note 9 — Losses and Loss Adjustment Expenses

The liability for losses and loss adjustment expenses is determined on an individual case basis for all claims reported. The liability also includes amounts for unallocated expenses, anticipated future claim development and losses incurred, but not reported.

Activity in the liability for unpaid losses and loss adjustment expenses is summarized as follows:

	Three Months Ended	
	March 31,	
	2017	2016
Balance, beginning of period	\$ 70,492	\$ 51,690
Incurred related to:

Total paid	<u>(26,110)</u>	<u>(25,499)</u>
Balance, end of period	<u>\$ 69,911</u>	<u>\$ 53,271</u>

The establishment of loss reserves is an inherently uncertain process and changes in loss reserve estimates are expected as these estimates are subject to the outcome of future events. Changes in estimates, or differences between estimates and amounts ultimately paid, are reflected in the operating results of the period during which such estimates are adjusted. During the three months ended March 31, 2017, the Company experienced net loss development related to prior years of \$2,312, of which \$2,491 pertains to claims in the 2016 loss year. The 2016 development is attributable to the continuing trend in the assignment of benefits litigation.

The Company writes insurance in the state of Florida, which could be exposed to hurricanes or other natural catastrophes. The occurrence of a major catastrophe could have a significant effect on the Company's quarterly results and cause a temporary disruption of the normal operations of the Company. However, the Company is unable to predict the frequency or severity of any such events that may occur in the near term or thereafter.

Note 10 — Segment Information

The Company's businesses consist of four operating divisions: property and casualty insurance, reinsurance, investment real estate and information technology. The Company's chief executive officer, who serves as the Company's chief operating decision maker, evaluates each division's financial and operating performances based on revenue and operating income. The Company aggregates its operating divisions into segments based on organizational structure and revenue source.

Due to their economic characteristics, the Company's property and casualty insurance division and reinsurance division are grouped together into one reportable segment under insurance operations. For the three months ended March 31, 2017 and 2016, revenues from the Company's insurance operations before intracompany elimination represented 96.5% and 97.1%, respectively, of total revenues of all operating segments. At March 31, 2017 and December 31, 2016, insurance operations' total assets represented 87.1% and 87.9%, respectively, of the combined assets of all operating segments. There was no other operating division representing ten percent or more of the Company's total revenues or combined assets. In addition, there was no other operating division representing ten percent or more of the greater, in absolute amount, of the combined profits of all operating divisions reporting a profit or the combined losses of all operating divisions reporting a loss. The following tables present segment information reconciled to the Company's consolidated statements of income. Other non-reportable divisions are combined and disclosed in Corporate and Other. Intersegment transactions are not eliminated from segment results. However, intracompany transactions are eliminated in segment results below.

During the three months ended March 31, 2017 and 2016, the Company recorded approximately \$7,122 and \$3,641, respectively, of income taxes, which resulted in effective tax rates of 37.2% and 37.5%, respectively. The Company's estimated annual effective tax rate differs from the statutory federal tax rate due to state and foreign income taxes as well as certain nondeductible and tax-exempt items.

Note 12 — Earnings Per Share

U.S. GAAP requires the Company to use the two-class method in computing basic earnings per share since holders of the Company's restricted stock have the right to share in dividends, if declared, equally with common stockholders. These participating securities affect the computation of both basic and diluted earnings per share during periods of net income.

A summary of the numerator and denominator of the basic and diluted earnings per common share is presented below.

Note 13 — Stockholders' Equity

Common Stock

In December 2016, the Company's Board of Directors authorized a plan to repurchase up to \$20,000 of the Company's common shares before commissions and fees. During the three months ended March 31, 2017, the Company repurchased and retired a total of 37,516 shares at a weighted average price per share of \$41.29 under this authorized repurchase plan. The total cost of shares repurchased, inclusive of fees and commissions, during the three months ended March 31, 2017 was \$1,550, or \$41.33 per share.

In December 2015, the Company's Board of Directors authorized a one-year plan to repurchase up to \$20,000 of the Company's common shares before commissions and fees. During the three months ended March 31, 2016, the Company repurchased and retired a total of 186,858 shares at a weighted average price per share of \$32.11 under this authorized repurchase plan. The total cost of shares repurchased, inclusive of fees and commissions, during the three months ended March 31, 2016 was \$6,007, or \$32.15 per share.

Notes to Consolidated Financial Statements (unaudited)

(Amounts in thousands, except share and per share amounts, unless otherwise stated)

On January 16, 2017, the Company's Board of Directors declared a quarterly dividend of \$0.35 per common share. The dividends were paid on March 17, 2017 to stockholders of record on February 17, 2017. On April 17, 2017, the Company's Board of Directors declared a quarterly dividend of \$0.35 per common share. The dividends are payable on June 16, 2017 to stockholders of record on May 19, 2017.

Share Repurchase Agreements

In conjunction with the issuance of the 4.25% Convertible Notes as described in Note 7 — "Long-Term Debt" under *Convertible Senior Notes*, the Company used \$20,345 of the net proceeds to repurchase and retire an aggregate of 413,600 shares of its common stock at a price of \$49.19 per share from institutional investors.

Prepaid Share Repurchase Forward Contracts

The Company has two outstanding prepaid share repurchase forward contracts, one of which was entered into with Deutsche Bank AG, London Branch in conjunction with the issuance of the 3.875% Convertible Notes. The other was entered into with Societe Generale in conjunction with the recent issuance of the 4.25% Convertible Notes as described in Note 7 — "Long-Term Debt" under *Convertible Senior Notes*. Both Deutsche Bank AG, London Branch and Societe Generale are considered forward counterparties. Under these forward contracts, the Company made initial upfront payments in exchange for the future deliveries of the Company's common stock from the forward counterparties. Pursuant to the forward contract entered into in December 2013 with Deutsche Bank AG, London Branch, the Company prepaid \$29,923 to repurchase 622,751 shares of the Company's common stock, which shares will be delivered over a settlement period in 2019. Pursuant to the forward contract entered into in March 2017 with Societe Generale, the Company prepaid \$9,400 of the net proceeds of the offering to repurchase 191,100 shares of the Company's common stock, which shares will be delivered over a settlement period in 2022.

Each forward contract is subject to early settlement, in whole or in part, at any time prior to the final settlement date at the option of each forward counterparty, as well as early settlement or settlement with alternative consideration in the event of certain corporate transactions. In the event the Company pays any cash dividends on its common shares, each forward counterparty will pay an equivalent amount to the Company. The shares to be purchased under the forward contracts will be treated as retired for financial statement purposes as of the effective date of each forward contract, but will remain outstanding for corporate law purposes, including for purposes of any future stockholders votes.

The Company determined that each forward contract does not meet the characteristics of a derivative instrument and, as such, the transaction resulted in an immediate reduction of the outstanding shares used to calculate the weighted-average common shares outstanding for both basic and diluted earnings per share.

Note 14 — Stock-Based Compensation

Incentive Plans

The Company currently has outstanding stock-based awards granted under the 2007 Stock Option and Incentive Plan and the 2012 Omnibus Incentive Plan. Only the 2012 Plan is active and available for future grants. On March 17, 2017, the Company's board of directors amended the 2012 Omnibus Incentive Plan and reduced the number of shares reserved under the plan from 5,000,000 shares to 3,000,000 shares. At March 31, 2017, there were 2,082,751 shares available for grant.

Stock Options

Stock options granted and outstanding under the incentive plans vest over periods ranging from immediately vested to five years and are exercisable over the contractual term of ten years.

A summary of the stock option activity for the three months ended March 31, 2017 and 2016 is as follows (option amounts not in thousands):

	Number of Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding at January 1, 2017	50,000	\$ 4.02	2.3 years	\$ 1,773
Granted	110,000	\$ 40.00		
Outstanding at March 31, 2017	<u>160,000</u>	\$ 28.76	7.4 years	\$ 2,591
Exercisable at March 31, 2017	<u>50,000</u>	\$ 4.02	2.0 years	\$ 2,046
Outstanding at January 1, 2016	110,000	\$ 3.19	2.3 years	\$ 3,482
Outstanding at March 31, 2016	<u>110,000</u>	\$ 3.19	2.1 years	\$ 3,312
Exercisable at March 31, 2016	<u>110,000</u>	\$ 3.19	2.1 years	\$ 3,312

There were no options exercised during the three months ended March 31, 2017 and 2016. For the three months ended March 31, 2017 and 2016, the Company recognized \$96 and \$0, respectively, of compensation expense which was included in other operating expenses. Deferred tax benefits related to stock options for the three months ended March 31, 2017 and 2016 were \$37 and \$0, respectively. At March 31, 2017 and December 31, 2016, there was \$1,151 and \$0, respectively, of unrecognized compensation expense related to nonvested stock options. The Company expects to recognize the remaining compensation expense over a weighted-average period of 3.8 years.

The following table provides assumptions used in the Black-Scholes option-pricing model to estimate the fair value of the stock options granted during the three months ended March 31, 2017:

Expected dividend yield	3.53%
Expected volatility	42.86%
Risk-free interest rate	1.92%
Expected life (in years)	5

Restricted Stock Awards

From time to time, the Company has granted and may grant restricted stock awards to its executive officers, other employees and nonemployee directors in connection with their service to the Company. The terms of the Company's outstanding restricted stock grants may include service, performance and market-based conditions. The fair value of the awards with market-based conditions is determined using a Monte Carlo simulation method, which calculates many potential outcomes for an award and then establishes fair value based on the most likely outcome. The determination of fair value with respect to the awards containing only performance or service-based conditions is based on the market value of the Company's common stock on the grant date.

Information with respect to the activity of unvested restricted stock awards during the three months ended March 31, 2017 and 2016 is as follows:

	Number of Restricted Stock Awards	Weighted Average Grant Date Fair Value
Nonvested at January 1, 2017	542,503	\$ 30.81
Granted	45,000	\$ 40.15
Vested	(20,109)	\$ 48.42
Forfeited	(926)	\$ 35.52
Nonvested at March 31, 2017	<u>566,468</u>	<u>\$ 30.92</u>
Nonvested at January 1, 2016	620,513	\$ 30.33
Vested	(20,917)	\$ 48.42
Cancelled	(160,000)	\$ 26.27
Forfeited	(750)	\$ 45.25
Nonvested at March 31, 2016	<u>438,846</u>	<u>\$ 30.93</u>

The Company recognized compensation expense related to restricted stock, which is included in other operating expenses, of \$1,006 and \$981 for the three months ended March 31, 2017 and 2016, respectively. At March 31, 2017 and 2016, there was approximately \$8,299 and \$6,625, respectively, of total unrecognized compensation expense related to nonvested restricted stock arrangements. The Company expects to recognize the remaining compensation expense over a weighted-average period of 23 months. The following table summarizes information about deferred tax benefits recognized and tax benefits realized related to restricted stock awards and paid dividends, and the fair value of vested restricted stock for the three months ended March 31, 2017 and 2016.

	Three Months Ended March 31,	
	2017	2016
Deferred tax benefits recognized	\$ 353	\$ 379
Tax benefits realized for restricted stock and paid dividends*	\$ 62	\$ 50
Fair value of vested restricted stock	\$ 974	\$ 1,013

* For the three months ended March 31, 2017, tax benefits were realized for paid dividends only.

Note 15 — Commitments and Contingencies

Obligations under Multi-Year Reinsurance Contracts

As of March 31, 2017, the Company has contractual obligations related to multi-year reinsurance contracts. These contracts have effective dates of June 1, 2016 and may be cancelled only with the other party's consent. The future minimum aggregate premiums amount payable to the reinsurers due in June of 2017 and 2018 is \$19,400 and \$19,400, respectively.

Capital Commitment

As described in Note 3 — "Investments" under *Limited Partnership Investments*, the Company is contractually committed to capital contributions for three limited partnership interests. At March 31, 2017, there was an aggregate unfunded balance of \$11,208.

Note 16 — Subsequent Events

On April 18, 2017, the Company's Board of Directors approved the termination of its common shareholder's right to purchase Series B Junior Participating Preferred Share by amending the associated rights agreement to accelerate the expiration date to April 18, 2017.

On April 3, 2017, the Company redeemed its 8% publicly traded, unsecured senior notes at par for \$40,805, including accrued and unpaid interest of \$555. The Company recognized a total charge of \$743 associated with the early extinguishment of this debt. The redemption was funded by the net proceeds from the issuance of the 4.25% Convertible Senior Notes as described in Note 7 — "Long-Term Debt" under *Convertible Senior Notes*.

ITEM 2 – MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion under this Item 2 in conjunction with our consolidated financial statements and related notes and information included elsewhere in this quarterly report on Form 10-Q and in our Form 10-K filed with the Securities and Exchange Commission (“SEC”) on February 22, 2017. Unless the context requires otherwise, as used in this Form 10-Q, the terms “HCI,” “we,” “us,” “our,” “the Company,” “our company,” and similar references refer to HCI Group, Inc., a Florida corporation incorporated in 2006, and its subsidiaries. All dollar amounts in this Management’s Discussion and Analysis of Financial Condition and Results of Operations are in whole dollars unless specified otherwise.

Forward-Looking Statements

In addition to historical information, this quarterly report contains forward-looking statements as defined under federal securities laws. Such statements involve risks and uncertainties, such as statements about our plans, objectives, expectations, assumptions or future events. These statements involve estimates, assumptions, known and unknown risks, uncertainties and other factors that could cause actual results to differ materially from any future results, performances or achievements expressed or implied by the forward-looking statements. Typically, forward-looking statements can be identified by terminology such as “anticipate,” “estimate,” “plan,” “project,” “continuing,” “ongoing,” “expect,” “believe,” “intend,” “may,” “will,” “should,” “could,” and similar expressions. The important factors that could cause actual results to differ materially from those indicated by such forward-looking statements include but are not limited to the effects of governmental regulation; changes in insurance regulations; the frequency and extent of claims; uncertainties inherent in reserve estimates; catastrophic events; changes in the demand for, pricing of, availability of or collectability of reinsurance; restrictions on our ability to change premium rates; increased rate pressure on premiums; and other risks and uncertainties detailed herein and from time to time in our SEC reports.

OVERVIEW – General

HCI Group, Inc. is a Florida-based company that, through its subsidiaries, is engaged in a variety of business activities, including property and casualty insurance, reinsurance, real estate and information technology. Based on our organizational structure, revenue sources, and evaluation of financial and operating performances by management, we manage four operating divisions, which includes the following operations:

- a) Insurance Operations
 - *Property and casualty insurance*
 - *Reinsurance*
- b) Other Operations
 - *Real estate*
 - *Information technology*

For the three months ended March 31, 2017 and 2016, revenues from insurance operations before intracompany elimination represented 96.5% and 97.1%, respectively, of total revenues of all operating segments. At March 31, 2017 and December 31, 2016, insurance operations' total assets represented 87.1% and 87.9%, respectively, of the combined assets of all operating segments. There was no other operating division representing ten percent or more of our total revenues or combined assets. See Note 10 — "Segment Information" to our unaudited consolidated financial statements under Item 1 of this Quarterly Report on Form 10-Q for additional information.

Insurance Operations

Property and Casualty Insurance

Homeowners Choice Property & Casualty Insurance Company, Inc.

Our principal operating subsidiary, Homeowners Choice Property & Casualty Insurance Company, Inc. ("HCPCI"), is a leading provider of property and casualty insurance in the state of Florida. HCPCI along with certain of our other subsidiaries currently provides property and casualty insurance to homeowners, condominium owners, and tenants in the state of Florida. HCPCI offers flood-endorsed and wind-only policies to eligible new and pre-existing Florida customers. In December 2015, HCPCI was approved by the Florida Office of Insurance Regulation to write standalone flood insurance policies for Florida homeowners. HCPCI strives to offer insurance products at competitive rates, while pursuing profitability using selective underwriting criteria.

HCPCI began operations in 2007 by participating in a "take-out program," which is a legislatively mandated program designed to encourage private insurance companies to assume policies from Citizens Property Insurance Corporation, a Florida state-supported insurer. Our growth since inception has resulted primarily from a series of policy assumptions. This growth track has been beneficial to us although there are fewer policies available for assumption today as a result of increased competition in the Florida market. Thus, we plan to seek other opportunities to expand by providing new or additional product offerings in and outside the state of Florida.

TypTap Insurance Company

TypTap Insurance Company was organized by HCI Group, Inc. and approved by the Florida Office of Insurance Regulation in January 2016 to transact insurance business in the state of Florida. TypTap began writing standalone flood coverage to Florida homeowners in March 2016.

We expect the flood insurance products offered by TypTap and HCPCI to become significant contributors to future financial results.

Reinsurance

We have a Bermuda domiciled wholly-owned reinsurance subsidiary, Claddaugh Casualty Insurance Company Ltd. We selectively retain risk in Claddaugh, displacing the need for HCPCI to pay premiums to third party reinsurers. Claddaugh fully collateralizes its exposure to HCPCI by depositing funds into a trust account. Claddaugh also from time to time mitigates a portion of its risk through retrocession contracts.

Other Operations

Real Estate

Our real estate operations consist of multiple properties we own and operate. Properties used in operations consist of our Tampa headquarters building and a secondary insurance operations site in Ocala, Florida. We also have investment properties consisting of a combined 24 acres of waterfront property, land, and land improvements that include one full-service restaurant and two marinas as well as two retail shopping centers.

In addition, we have one ongoing real estate development and construction project described as a joint venture arrangement under U.S. GAAP, which we consolidate with our operations. See Note 3 — “Investments” to our unaudited consolidated financial statements under Item 1 of this Quarterly Report on Form 10-Q for additional information.

Information Technology

Our information technology operations include a team of experienced software developers with extensive knowledge in developing web-based products and applications for mobile devices. The operations, which are in Tampa, Florida and Noida, India, are focused on developing cloud-based, innovative products or services that support in-house operations as well as our third party relationships with our agency partners and claim vendors. These products include *Proplet™*, *TypTap™*, *SAMSTM*, *Exzeo®*, *Atlas Viewer™*, and *CasaClue™*.

Recent Events

On April 18, 2017, our Board of Directors approved the termination of our common shareholder’s right to purchase Series B Junior Participating Preferred Share by amending the associated rights agreement to accelerate the expiration date to April 18, 2017.

On April 17, 2017, our Board of Directors declared a quarterly dividend of \$0.35 per common share. The dividends are payable on June 16, 2017 to stockholders of record on May 19, 2017.

On April 3, 2017, we redeemed our 8% Senior Notes at par for approximately \$40,805,000, including accrued and unpaid interest. See Note 16 — “Subsequent Event” to our unaudited consolidated financial statements under Item 1 of this Quarterly Report on Form 10-Q for additional information.

On March 3, 2017, we completed the sale of our 4.25% Convertible Senior Notes due 2037 in a private offering for an aggregate principal amount of \$143,750,000. See Note 7 — “Long-Term Debt” to our unaudited consolidated financial statements under Item 1 of this Quarterly Report on Form 10-Q for additional information. In addition, we used an aggregate of \$29,745,000 of the net proceeds to repurchase our common stock through share repurchase agreements and a prepaid share repurchase forward contract. See Note 13 — “Stockholders’ Equity” to our unaudited consolidated financial statements under Item 1 of this Quarterly Report on Form 10-Q.

Comparison of the Three Months ended March 31, 2017 to the Three Months ended March 31, 2016

Our results of operations for the three months ended March 31, 2017 reflect income available to common stockholders of approximately \$12,020,000, or \$1.15 earnings per diluted common share, compared with approximately \$6,056,000, or \$0.60 earnings per diluted common share, for the three months ended March 31, 2016. The quarter-over-quarter increase is primarily due to a \$11,789,000 decrease in premiums ceded offset by a \$7,200,000 decrease in gross premiums earned, resulting in an increase in net premiums earned of \$4,589,000. In addition, an increase in net investment income of \$1,344,000 positively contributes to our 2017 results.

Revenue

Gross Premiums Earned for the three months ended March 31, 2017 and 2016 were approximately \$91,619,000 and \$98,819,000, respectively. The decrease in 2017 was attributable to policy attrition as well as the tailing effect of a rate decrease effective on new and renewal policies beginning in January 2016.

Premiums Ceded for the three months ended March 31, 2017 and 2016 were approximately \$28,583,000 and \$40,372,000, respectively, representing 31.2% and 40.9%, respectively, of gross premiums earned. The \$11,789,000 decrease was primarily attributable to the lower costs of our 2016/17 reinsurance program, which began June 1, 2016 as compared with the costs of the 2015/16 program that began June 1, 2015. In addition, the reduction to our ceded premiums attributable to retrospective provisions under certain reinsurance contracts was higher as compared with the corresponding period in 2016.

Our premiums ceded represent amounts paid to reinsurers to cover losses from catastrophes that exceed the retention levels defined by our catastrophe excess of loss reinsurance treaties or to assume a proportional share of losses as defined by quota share agreements. For the three months ended March 31, 2017 and 2016, premiums ceded reflect net reductions of approximately \$3,322,000 and \$2,821,000, respectively, related to the provisions under certain reinsurance contracts. See "Economic Impact of Reinsurance Contracts with Retrospective Provisions" under "Critical Accounting Policies and Estimates." The rates we pay for reinsurance are based primarily on policy exposures reflected in gross premiums earned.

Net Premiums Written for the three months ended March 31, 2017 and 2016 totaled approximately \$42,842,000 and \$35,188,000, respectively. Net premiums written represent the premiums charged on policies issued during a fiscal period less any applicable reinsurance costs. The \$7,654,000 increase in 2017 resulted from the decrease in premiums ceded during the period described above offset by a decrease of \$4,135,000 in gross premiums written. We had approximately 148,000 policies in force at March 31, 2017 as compared with approximately 158,000 policies in force at March 31, 2016.

Net Premiums Earned for the three months ended March 31, 2017 and 2016 were approximately \$63,036,000 and \$58,447,000, respectively, and reflect the gross premiums earned less reinsurance costs as described above.

[Table of Contents](#)

The following is a reconciliation of our total Net Premiums Written to Net Premiums Earned for the three months ended March 31, 2017 and 2016 (amounts in thousands):

	Three Months Ended March 31,	
	2017	2016
Net Premiums Written	\$42,842	\$35,188
Decrease in Unearned Premiums	20,194	23,259
Net Premiums Earned	<u>\$63,036</u>	<u>\$58,447</u>

Net Investment Income for the three months ended March 31, 2017 and 2016 was approximately \$2,834,000 and \$1,490,000, respectively. The increase in 2017 was primarily due to \$772,000 of income from limited partnership investments compared with a \$869,000 loss during the first quarter of 2016. See Note 3 — “Investments” under Net Investment Income to our unaudited consolidated financial statements under Item 1 of this Quarterly Report on Form 10-Q.

Net Other-Than-Temporary Impairment Losses for the three months ended March 31, 2017 and 2016 were approximately \$213,000 and \$675,000, respectively. During the first quarter of 2017, we recognized impairment losses specific to one fixed-maturity security and three equity securities. The fixed-maturity security was subject to impairment resulting from our intention to sell this security before its recovery. Three equity securities were impaired because each security had been in an unrealized loss position for a length of time with no near term prospect of recovery. During the quarter ended March 31, 2016, we recognized impairment losses specific to one fixed-maturity security and 11 equity securities.

Gain on Repurchases of Convertible Senior Notes for the three months ended March 31, 2016 was approximately \$153,000. The gain was attributable to the repurchase of \$13,010,000 in principal of our 3.875% Convertible Senior Notes during the first quarter of 2016.

Expenses

Our Losses and Loss Adjustment Expenses amounted to approximately \$25,529,000 and \$27,080,000 for the three months ended March 31, 2017 and 2016, respectively. During the first quarter of 2017, we continued to strengthen our loss reserves in response to trends involving assignment of insurance benefits and related litigation. Our 2016 losses and loss adjustment expenses were impacted by weather-related events occurring in the first quarter of 2016, which accounted for approximately \$5,000,000 of the increase, with the remaining amount being attributable to normal loss activity. See “Reserves for Losses and Loss Adjustment Expenses” under “Critical Accounting Policies and Estimates.”

Policy Acquisition and Other Underwriting Expenses for the three months ended March 31, 2017 and 2016 of approximately \$9,649,000 and \$11,110,000, respectively, primarily reflect commissions and premium taxes related to the policies that have renewed. The \$1,461,000 decrease from the corresponding period in 2016 was primarily attributable to a decrease in commissions and premium taxes resulting from policy attrition and the effect of the rate decrease.

Salaries and Wages for the three months ended March 31, 2017 and 2016 were approximately \$5,003,000 and \$5,384,000, respectively. The \$381,000 decrease from the corresponding period in 2016 despite an increase in employee headcount was primarily attributable to the capitalization of payroll costs related to a software development project for internal use. As of March 31, 2017, we had approximately 247 employees located at our offices in Florida compared with 225 employees as of March 31, 2016. We also had 76 employees located in Noida, India at March 31, 2017 versus 85 at March 31, 2016.

Interest Expense for the three months ended March 31, 2017 and 2016 was approximately \$3,542,000 and \$2,829,000, respectively. The increase primarily resulted from the 4.25% convertible debt offering completed in March 2017.

Income Tax Expense for the three months ended March 31, 2017 and 2016 was approximately \$7,122,000 and \$3,641,000, respectively, for state, federal, and foreign income taxes resulting in an effective tax rate of 37.2% for 2017 and 37.5% for 2016.

Ratios:

The loss ratio applicable to the three months ended March 31, 2017 (losses and loss adjustment expenses incurred related to net premiums earned) was 40.5% compared with 46.3% for the three months ended March 31, 2016. The decrease was primarily due to an increase in net premiums earned and decreased losses as described previously.

The expense ratio applicable to the three months ended March 31, 2017 (defined as underwriting expenses, salaries and wages, interest and other operating expenses related to net premiums earned) was 36.6% compared with 41.0% for the three months ended March 31, 2016. The decrease in our expense ratio was primarily attributable to the increase in net premiums earned.

The combined ratio (total of all expenses in relation to net premiums earned) is the measure of overall underwriting profitability before other income. Our combined ratio for the three months ended March 31, 2017 was 77.1% compared with 87.3% for the three months ended March 31, 2016.

Due to the impact our reinsurance costs have on net premiums earned from period to period, our management believes the combined ratio measured to gross premiums earned is more relevant in assessing overall performance. The combined ratio to gross premiums earned for the three months ended March 31, 2017 was 53.0% compared with 51.7% for the three months ended March 31, 2016.

Seasonality of Our Business

Our insurance business is seasonal as hurricanes and tropical storms affecting Florida typically occur during the period from June 1 through November 30 each year. Also, with our reinsurance treaty year typically effective June 1 each year, any variation in the cost of our reinsurance, whether due to changes in reinsurance rates or changes in the total insured value of our policy base, will occur and be reflected in our financial results beginning June 1 each year.

LIQUIDITY AND CAPITAL RESOURCES

Throughout our history, our liquidity requirements have been met through issuances of our common and preferred stock, debt offerings and funds from operations. We expect our future liquidity requirements will be met by funds from operations, primarily the cash received by insurance subsidiaries from premiums written and investment income. We may consider raising additional capital through debt and equity offerings to support our growth and future investment opportunities.

Our insurance subsidiary requires liquidity and adequate capital to meet ongoing obligations to policyholders and claimants and to fund operating expenses. In addition, we attempt to maintain adequate levels of liquidity and surplus to manage any differences between the duration of our liabilities and invested assets. In the insurance industry, cash collected for premiums from policies written is invested, interest and dividends are earned thereon, and losses and loss adjustment expenses are paid out over a period of years. This period of time varies by the circumstances surrounding each claim. Substantially all of our losses and loss adjustment expenses are fully settled and paid within 100 days of the claim receipt date. Additional cash outflow occurs through payments of underwriting costs such as commissions, taxes, payroll, and general overhead expenses.

We believe that we maintain sufficient liquidity to pay claims and expenses, as well as to satisfy commitments in the event of unforeseen events such as reinsurer insolvencies, inadequate premium rates, or reserve deficiencies. We maintain a comprehensive reinsurance program at levels management considers adequate to diversify risk and safeguard our financial position.

In the future, we anticipate our primary use of funds will be to pay claims, reinsurance premiums, interest, and dividends and to fund operating expenses. In addition, we intend to continue investing in real estate to maximize returns and diversify our sources of income, pursue acquisition opportunities, or consider other strategic opportunities.

Senior Notes and Promissory Notes

The following table summarizes our long-term debt's principal and interest payment obligations at March 31, 2017:

	<u>Maturity Date</u>	<u>Interest Payment Due Date</u>
3.875% Convertible Senior Notes	March 2019	March 15 and September 15
4.25% Convertible Senior Notes	March 2037	March 1 and September 1
4% Promissory Note	Through February 2031	1 st day of each month
3.75% Callable Promissory Note	Through September 2036	1 st day of each month
3.95% Promissory Note	Through February 2020	17 th of each month

See Note 7 — "Long-Term Debt" to our unaudited consolidated financial statements under Item 1 of this Quarterly Report on Form 10-Q for additional information.

Limited Partnership Investments

Our limited partnership investments consist of three private equity funds managed by their general partners. These funds have unexpired capital commitments which are callable at the discretion of the fund's general partner for funding new investments or expenses of the fund. At March 31, 2017, there was an aggregate unfunded capital balance of \$11,208,000. See *Limited Partnership Investments* under Note 3 — "Investments" to our unaudited consolidated financial statements under Item 1 of this Quarterly Report on Form 10-Q for additional information.

Share Repurchase Plan

In December 2016, our Board of Directors approved a one-year plan to repurchase up to \$20,000,000 of common shares under which we may purchase shares of common stock in open market purchases, block transactions and privately negotiated transactions in accordance with applicable federal securities laws. At March 31, 2017, there was approximately \$18,451,000 available under the plan. See Note 13 — “Stockholders’ Equity” to our unaudited consolidated financial statements under Item 1 of this Quarterly Report on Form 10-Q.

Real Estate Development in Progress

We currently have development projects through various limited liability companies. Although we have no outstanding commitment to fund any of the existing projects and we expect to finance existing and future development projects with cash from real estate operations and through property financings, we may be required to make additional capital contributions to maintain and complete these projects.

Sources and Uses of Cash

Cash Flows for the Three months ended March 31, 2017

Net cash provided by operating activities for the three months ended March 31, 2017 was approximately \$24,256,000, which consisted primarily of cash received from net premiums written less cash disbursed for operating expenses, losses and loss adjustment expenses and interest payments. Net cash used in investing activities of \$801,000 was primarily due to the purchases of available-for-sale securities of \$20,961,000, the limited partnership investments of \$2,346,000, and the real estate investments of \$1,119,000, offset by the distributions of \$11,758,000 from limited partnership investments and the proceeds from sales of available-for-sale securities of \$11,710,000. Net cash provided by financing activities totaled \$103,905,000, which was primarily due to the proceeds from issuance of 4.25% Convertible Senior Notes of \$143,750,000, offset by \$4,806,000 of related underwriting and issuance costs, \$31,555,000 used in our share repurchases and \$3,378,000 of net cash dividend payments.

Cash Flows for the Three months ended March 31, 2016

Net cash provided by operating activities for the three months ended March 31, 2016 was approximately \$27,291,000, which consisted primarily of cash received from net premiums written less cash disbursed for operating expenses, losses and loss adjustment expenses and interest payments. Net cash used in investing activities of \$5,586,000 was primarily due to the purchases of available-for-sale securities of \$9,002,000, and the limited partnership investments of \$1,668,000, offset by the proceeds from sales of available-for-sale securities of \$5,454,000. Net cash used in financing activities totaled \$11,531,000, which was primarily due to \$11,347,000 used in the repurchases of our convertible senior notes, \$6,007,000 used in our share repurchase plan and \$3,001,000 of net cash dividend payments, offset by the proceeds from issuance of a 4% promissory note of \$9,200,000.

Investments

The main objective of our investment policy is to maximize our after-tax investment income with a reasonable level of risk given the current financial market. Our excess cash is invested primarily in money market accounts and available-for-sale investments.

At March 31, 2017, we had \$230,238,000 of available-for-sale investments, which are carried at fair value. Changes in the general interest rate environment affect the returns available on new fixed-maturity investments. While a rising interest rate environment enhances the returns available on new investments, it reduces the market value of existing fixed-maturity investments and thus the availability of gains on disposition. A decline in interest rates reduces the returns available on new fixed-maturity investments but increases the market value of existing fixed-maturity investments, creating the opportunity for realized investment gains on disposition.

With the exception of large national banks, it is our current policy not to maintain cash deposits of more than an aggregate of \$10,000,000 in any one bank at any time. From time to time, we may have in excess of \$10,000,000 of cash designated for investment and on deposit at a single national brokerage firm. In the future, we may alter our investment policy as to investments in federal, state and municipal obligations, preferred and common equity securities and real estate mortgages, as permitted by applicable law, including insurance regulations.

OFF-BALANCE SHEET ARRANGEMENTS

As of March 31, 2017, we had unexpired capital commitments for three limited partnerships in which we hold interests. Such commitments are not recognized in the financial statements but are required to be disclosed in the notes to the financial statements. See Note 15 — “Commitments and Contingencies” to our unaudited consolidated financial statements under Item 1 of this Quarterly Report on Form 10-Q and *Contractual Obligations and Commitment* below for additional information.

CONTRACTUAL OBLIGATIONS AND COMMITMENTS

The following table summarizes our material contractual obligations and commitments as of March 31, 2017 (amounts in thousands):

- (2) Represents the minimum payment of reinsurance premiums under multi-year reinsurance contracts.
- (3) Represents the unfunded balance of capital commitments under the subscription agreements related to three limited partnerships in which we hold an interest.
- (4) Amounts represent principal and interest payments over the lives of various long-term debt obligations. See Note 7 — “Long-Term Debt” to our unaudited consolidated financial statements under Item 1 of this Quarterly Report on Form 10-Q.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

We have prepared our consolidated financial statements and related disclosures in accordance with accounting principles generally accepted in the United States of America. The preparation of these consolidated financial statements and related disclosures requires us to make judgments, assumptions and estimates to develop amounts reflected and disclosed in our consolidated financial statements. Management bases its estimates on historical experience and on various other assumptions it believes to be reasonable under the circumstances. Actual results may differ from these estimates and such differences may be material.

We believe our critical accounting policies and estimates are those related to losses and loss adjustment expenses, reinsurance with retrospective provisions, deferred income taxes, and stock-based compensation expense. These policies are critical to the portrayal of our financial condition and operating results. They require management to make judgments and estimates about inherently uncertain matters. Material estimates that are particularly susceptible to significant change in the near term are related to our losses and loss adjustment expense reserves, which include amounts estimated for claims incurred but not yet reported and reinsurance contracts with retrospective provisions.

Reserves for Losses and Loss Adjustment Expenses

Our liability for losses and loss adjustment expense (“Reserves”) is specific to property insurance, which is our insurance division’s only line of business. The Reserves include both case reserves on reported claims and our reserves for incurred but not reported (“IBNR”) losses. At each period end date, the balance of our Reserves is based on our best estimate of the ultimate cost of each claim for those known cases and the IBNR loss reserves are estimated based primarily on our historical experience. Changes in the estimated liability are charged or credited to operations as the losses and loss adjustment expenses are adjusted.

The IBNR represents our estimate of the ultimate cost of all claims that have occurred but have not been reported to us, and in some cases may not yet be known to the insured, and future development of reported claims. Estimating the IBNR component of our Reserves involves considerable judgment on the part of management. At March 31, 2017, \$50,194,000 of the total \$69,911,000 we have reserved for losses and loss adjustment expenses is attributable to our estimate of IBNR. The remaining \$19,717,000 relates to known cases which have been reported but not yet fully settled in which case we have established a reserve based on currently available information and our best estimate of the cost to settle each claim. At March 31, 2017, \$16,812,000 of the \$19,717,000 in reserves for known cases relates to claims incurred during prior years.

Our Reserves decreased from \$70,492,000 at December 31, 2016 to \$69,911,000 at March 31, 2017. The \$581,000 decrease in our Reserves is comprised of \$16,573,000 in reserves related to claims occurring in the 2017 loss year offset by reductions in our Reserves of \$11,574,000 for 2016 and \$5,580,000 for 2015 and prior loss years. The \$16,573,000 in Reserves established for 2017 claims is primarily driven by an allowance for subsequent development of claims reported for the accident year and an allowance for those claims that have been incurred but not reported to the company as of March 31, 2017. The decrease of \$17,154,000 specific to our 2016 and prior loss-year reserves is primarily due to settlement of claims related to those loss years.

Based on all information known to us, we consider our Reserves at March 31, 2017 to be adequate to cover our claims for losses that have occurred as of that date including losses yet to be reported to us. However, these estimates are continually reviewed by management as they are subject to significant variability and may be impacted by trends in claim severity and frequency or unusual exposures that have not yet been identified. As part of the process, we review historical data and consider various factors, including known and anticipated regulatory and legal developments, changes in social attitudes, inflation and economic conditions. As experience develops and other data becomes available, these estimates are revised, as required, resulting in increases or decreases to the existing unpaid losses and loss adjustment expenses. Adjustments are reflected in the results of operations in the period in which they are made and the liabilities may deviate substantially from prior estimates.

Economic Impact of Reinsurance Contracts with Retrospective Provisions

Certain of our reinsurance contracts include retrospective provisions that adjust premiums, increase the amount of future coverage, or result in a profit commission in the event losses are minimal or zero. In accordance with accounting principles generally accepted in the United States of America, we will recognize an asset in the period in which the absence of loss experience gives rise to an increase in future coverage or obligates the reinsurer to pay cash or other consideration under the contract. In the event that a loss arises, we will derecognize such asset in the period in which a loss arises. Such adjustments to the asset, which accrue throughout the contract term, will negatively impact our operating results when a catastrophic loss event occurs during the contract term.

For the three months ended March 31, 2017 and 2016, we accrued benefits of \$2,491,000 and \$4,683,000, respectively. For the three months ended March 31, 2017, we deferred recognition of \$831,000 of reinsurance costs. For the three months ended March 31, 2016, we recognized ceded premiums of \$1,862,000, representing amortization of previously deferred reinsurance costs for increased coverage. For the three months ended March 31, 2017 and 2016, net reductions in ceded premiums totaled \$3,322,000 and \$2,821,000, respectively. As of March 31, 2017, we had \$8,302,000 of accrued benefits and \$2,983,000 of ceded premiums deferred, amounts that would be charged to earnings in the event we experience a catastrophic loss that exceeds the coverage limits provided under such agreements and in the period that the increased coverage is applicable, respectively. At December 31, 2016, we had \$5,810,000 of accrued benefits and \$2,152,000 of ceded premiums deferred related to these agreements.

We believe the credit risk associated with the collectability of these accrued benefits is minimal based on available information about the individual reinsurer's financial position.

The above and other accounting estimates and their related risks that we consider to be our critical accounting estimates are more fully described in our Annual Report on Form 10-K, which we filed with the SEC on February 22, 2017. For the three months ended March 31, 2017, there have been no material changes with respect to any of our critical accounting policies.

RECENT ACCOUNTING PRONOUNCEMENTS

For information with respect to recent accounting pronouncements and the impact of these pronouncements on our consolidated financial statements, see Note 2 to our Notes to Unaudited Consolidated Financial Statements.

ITEM 3 – QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our investment portfolios at March 31, 2017 included fixed-maturity and equity securities, the purposes of which are not for trading or speculation. Our main objective is to maximize after-tax investment income and maintain sufficient liquidity to meet our obligations while minimizing market risk, which is the potential economic loss from adverse fluctuations in securities prices. We consider many factors including credit ratings, investment concentrations, regulatory requirements, anticipated fluctuation of interest rates, durations and market conditions in developing investment strategies. Our investment securities are managed primarily by outside investment advisors and are overseen by the investment committee appointed by our board of directors.

Our investment portfolios are exposed to interest rate risk, credit risk and equity price risk. Fiscal and economic uncertainties caused by any government action or inaction may exacerbate these risks and potentially have adverse impacts on the value of our investment portfolios.

We classify our fixed-maturity and equity securities as available-for-sale and report any unrealized gains or losses, net of deferred income taxes, as a component of other comprehensive income within our stockholders' equity. As such, any material temporary changes in their fair value can adversely impact the carrying value of our stockholders' equity.

Interest Rate Risk

Our fixed-maturity securities are sensitive to potential losses resulting from unfavorable changes in interest rates. We manage the risk by analyzing anticipated movement in interest rates and considering our future capital needs.

The following table illustrates the impact of hypothetical changes in interest rates to the fair value of our fixed-maturity securities at March 31, 2017 (amounts in thousands):

<u>Hypothetical Change in Interest Rates</u>	<u>Estimated Fair Value</u>	<u>Change in Estimated Fair Value</u>	<u>Percentage Increase (Decrease) in Estimated Fair Value</u>
300 basis point increase	\$151,973	\$(20,801)	(12.04)%
200 basis point increase	158,903	(13,871)	(8.03)%
100 basis point increase	165,837	(6,937)	(4.02)%
100 basis point decrease	179,715	6,941	4.02%
200 basis point decrease	186,528	13,754	7.96%
300 basis point decrease	191,746	18,972	10.98%

Credit Risk

Credit risk can expose us to potential losses arising principally from adverse changes in the financial condition of the issuers of our fixed-maturity securities. We mitigate the risk by investing in fixed-maturity securities that are generally investment grade, by diversifying our investment portfolio to avoid concentrations in any single issuer or business sector, and by continually monitoring each individual security for declines in credit quality. While we emphasize credit quality in our investment selection process, significant downturns in the markets or general economy may impact the credit quality of our portfolio.

Total	<u>\$172,476</u>	<u>100</u>	<u>\$172,774</u>	<u>100</u>

Equity Price Risk

Our equity investment portfolio at March 31, 2017 included common stocks, perpetual preferred stocks, mutual funds and exchange traded funds. We may incur losses due to adverse changes in equity security prices. We manage the risk primarily through industry and issuer diversification and asset mix.

The following table illustrates the composition of our equity securities at March 31, 2017 (amounts in thousands):

	<u>Estimated Fair Value</u>	<u>% of Total Estimated Fair Value</u>
Stocks by sector:

Foreign Currency Exchange Risk

At March 31, 2017, we did not have any material exposure to foreign currency related risk.

ITEM 4 – CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our chief executive officer (our principal executive officer) and our chief financial officer (our principal financial officer), we have evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report, and, based on this evaluation, our chief executive officer and our chief financial officer have concluded that these disclosure controls and procedures are effective.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal controls over financial reporting during the quarter ended March 31, 2017 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Limitations on Effectiveness of Controls and Procedures

In designing and evaluating the disclosure controls and procedures, we recognize that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, implementation of possible controls and procedures depends on management's judgment in evaluating their benefits relative to costs.

PART II – OTHER INFORMATION

ITEM 1 – LEGAL PROCEEDINGS

The Company is a party to claims and legal actions arising routinely in the ordinary course of our business. Although we cannot predict with certainty the ultimate resolution of the claims and lawsuits asserted against us, we do not believe that any currently pending legal proceedings to which we are a party will have a material adverse effect on our consolidated financial position, results of operations or cash flows.

ITEM 1A – RISK FACTORS

There have been no material changes from the risk factors previously disclosed in the section entitled "Risk Factors" in our Form 10-K, which was filed with the SEC on February 22, 2017.

ITEM 2 – UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

(a) *Sales of Unregistered Securities and Use of Proceeds*

All information related to sales of unregistered securities had been reported in a current report on Form 8-K.

(b) *Repurchases of Securities*

The table below summarizes the number of common shares repurchased during the three months ended March 31, 2017 under a share repurchase plan and private share repurchase agreements, and also the number of shares of common stock surrendered by employees to satisfy their minimum federal income tax liability associated with the vesting of restricted shares in January 2017 (dollar amounts in thousands, except share and per share amounts):

For the Month Ended	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (a)	Maximum Dollar Value of Shares That May Yet Be Purchased Under The Plans or Programs (b)

February 28, 2017	12,783	\$ 43.05	12,783	\$ 18,451
March 31, 2017 (c)	413,600	\$ 49.19	—	\$ 18,451
	<u>457,733</u>	<u>\$ 48.40</u>	<u>37,516</u>	

(a) The share repurchase plan approved by our Board of Directors in December 2016 commenced in January 2017.

(b) Represents the balances before commissions and fees at the end of each month.

(c) Represents shares of common stock repurchased from institutional investors (see Note 13 — “Stockholders’ Equity” to our unaudited consolidated financial statements under Item 1 of this Quarterly Report on Form 10-Q for additional information).

Working Capital Restrictions and Other Limitations on Payment of Dividends

We are not subject to working capital restrictions or other limitations on the payment of dividends. Our insurance subsidiaries, however, are subject to restrictions on the dividends they may pay. Those restrictions could impact HCI’s ability to pay future dividends.

Under Florida law, a domestic insurer may not pay any dividend or distribute cash or other property to its stockholder except out of that part of its available and accumulated capital and surplus funds which is derived from realized net operating profits on its business and net realized capital gains. Additionally, a Florida domestic insurer may not make dividend payments or distributions to its stockholder without prior approval of the Florida Office of Insurance Regulation if the dividend or distribution would exceed the larger of (1) the lesser of (a) 10.0% of its capital surplus or (b) net income, not including realized capital gains, plus a two year carry forward, (2) 10.0% of capital surplus with dividends payable constrained to unassigned funds minus 25% of unrealized capital gains or (3) the lesser of (a) 10.0% of capital surplus or (b) net investment income plus a three year carry forward with dividends payable constrained to unassigned funds minus 25% of unrealized capital gains.

Alternatively, a Florida domestic insurer may pay a dividend or distribution without the prior written approval of the Florida Office of Insurance Regulation (1) if the dividend is equal to or less than the greater of (a) 10.0% of the insurer's capital surplus as regards policyholders derived from realized net operating profits on its business and net realized capital gains or (b) the insurer's entire net operating profits and realized net capital gains derived during the immediately preceding calendar year, (2) the insurer will have policy holder capital surplus equal to or exceeding 115.0% of the minimum required statutory capital surplus after the dividend or distribution, (3) the insurer files a notice of the dividend or distribution with the Florida Office of Insurance Regulation at least ten business days prior to the dividend payment or distribution and (4) the notice includes a certification by an officer of the insurer attesting that, after the payment of the dividend or distribution, the insurer will have at least 115% of required statutory capital surplus as to policyholders. Except as provided above, a Florida domiciled insurer may only pay a dividend or make a distribution (1) subject to prior approval by the Florida Office of Insurance Regulation or (2) 30 days after the Florida Office of Insurance Regulation has received notice of such dividend or distribution and has not disapproved it within such time.

During the quarter ended March 31, 2017, HCPCI paid a \$18,000,000 dividend to HCI.

Certification of Chief Executive Officer
Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, Paresh Patel, certify that:

1. I have reviewed this quarterly report on Form 10-Q of HCI Group, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
