**Note 1. Nature of Business**

Throughout this report, the terms “our,” “we,” “us,” and the “Company” refer to LifeApps Digital Media Inc., including its subsidiaries. The accompanying unaudited condensed consolidated financial statements of LifeApps Digital Media Inc. at September 30, 2013 and 2012 have been prepared in accordance with generally accepted accounting principles (“GAAP”) for interim financial statements, instructions to Form 10-Q, and Regulation S-X. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted. These condensed consolidated financial statements should be read in conjunction with the financial statements and notes thereto included in our annual report on Form 10-K for the year ended December 31, 2012. In management’s opinion, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation to make our financial statements not misleading have been included. The results of operations for the periods ended September 30, 2013 and 2012 presented are not necessarily indicative of the results to be expected for the full year. The December 31, 2012 balance sheet has been derived from our audited financial statements included in our annual report on Form 10-K for the year ended December 31, 2012.

We are building health, fitness and sports communities across multiple digital platforms including mobile apps, digital sports and fitness publications, sports and fitness products, sporting events, gateway platforms, online websites and social media.

We were in the development stage from July 15, 2009 through March 31, 2013. Our fiscal year ending December 31, 2013 is the first year during which we are considered an operating company and is no longer in the development stage.

**Note 2. Summary of Significant Accounting Policies**

The accompanying financial statements have been prepared in conformity with GAAP, which contemplates our continuation as a going concern. We have incurred losses to date of \$1,100,329. To date we have funded our operations through advances from a related party, issuance of convertible debt, and the sale of our common stock. We intend to raise additional funding through third party equity or debt financing. There is no certainty that funding will be available as needed. These factors raise substantial doubt about our ability to continue operating as a going concern. Our ability to continue our operations as a going concern, realize the carrying value of our assets, and discharge our liabilities in the normal course of business is dependent upon our ability to raise capital sufficient to fund our commitments and ongoing losses, and ultimately generate profitable operations.

*Principles of Consolidation*

The accompanying consolidated financial statements include the accounts of the Company and our wholly owned subsidiaries, Lifeapps Inc. and Sports One Group Inc. All material inter-company transactions and balances have been eliminated in consolidation.

*Use of Estimates*

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities in the balance sheets and revenues and expenses during the years reported. Actual results may differ from these estimates.

*Inventory*

Inventory consists of finished goods, sports and fitness products, and is stated at the lower of cost or net realizable value, with cost being determined on a first-in first-out basis.

*Intangibles*

Internet domain name costs are being amortized over the expected useful life of the domain name which we estimate to be is three years from the date of registering the domain name. In accordance with ASC Topic 350 *Intangibles – Goodwill and Other* (“ASC 350”), the costs to obtain and register an internet domain shall be capitalized. Website and customer and supplier lists are being amortized over three and five years, respectively, which are their estimated useful lives.

*Goodwill*

Goodwill is initially recorded at fair value and not amortized, but is reviewed for impairment at least annually or more frequently if impairment indicators arise. Our goodwill is allocated by reporting unit and is evaluated for impairment by first performing a qualitative assessment to determine whether a quantitative goodwill test is necessary. If it is determined, based on qualitative factors, the fair value of the reporting unit may be more likely than not less than carrying amount, or if significant changes to economic factors related to the reporting unit have occurred that could materially impact fair value, a quantitative goodwill impairment test would be required. Additionally, we can elect to forgo the qualitative assessment and perform the quantitative test.

*Revenue Recognition*

Revenue is derived primarily from the sale of sports and fitness apparel and equipment, and software applications designed for use on mobile devices such as smart phones and tablets. Revenue is recognized only when persuasive evidence of an arrangement exists, the fee is fixed or determinable, the product or service has been delivered, and collectability is probable.

**LifeApps Digital Media Inc.**  
**Notes to Condensed Consolidated Financial Statements**  
**September 30, 2013 and 2012**  
**(Unaudited)**

We sell our software directly via Internet download through third party agents. We recognize revenue when payment is received from the agent. Payment is received net of commission paid to the agent, usually 70% to us and 30% to the agent. We record the net amount received as revenue.

We also publish and sell digital magazines through the internet. Magazines can be purchased as individual volumes or as a subscription. To date we have not had any subscription sales.

*Research and development, Website Development Costs, and Software Development Costs*

All research and development costs are expensed as incurred. Software development costs eligible for capitalization under ASC 350-50, *Website Development Cost*, and ASC 985-20, *Software-Costs of Software to be Sold, Leased or Marketed*, were not material to our financial statements for the nine and three months ended September 30, 2013 and 2012. Research and development expenses amounted to \$30,286 and \$57,003 for nine months ended September 30, 2013 and 2012, respectively, and \$3,554 and \$12,598 for the three months ended September 30, 2013 and 2012, respectively. Research and development expenses were included in general and administrative expenses.

*Advertising Costs*

We recognize advertising expense when incurred. Advertising expense was \$55,250 and \$20,257 for the nine months ended September 30, 2013 and 2012, respectively, and \$12,210 and \$8,708 for the three months ended September 30, 2013 and 2012, respectively.

*Rent Expense*

We recognizes rent expense on a straight-line basis over the reasonably assured lease term as defined in ASC Topic 840, *Leases* ("ASC 840"). Our lease is short term and will be renewed on a month to month basis. Rent expense for the nine months ended September 30, 2013 and 2012, was \$15,499 and \$7,495, respectively. Rent expense for the three months ended September 30, 2013 and 2012, was \$6,160 and \$3,835, respectively.

*Recent Pronouncements*

We have reviewed all recently issued, but not yet effective, accounting pronouncements and do not believe the future adoption of any such pronouncements may be expected to cause a material impact on our financial condition or the results of operations.

**Note 3. Business Combination**

On April 1, 2013, we purchased certain assets, related to a gateway platform which matches sports apparel manufacturers with distributors and purchasers, from Sports One Group and Performance Gear ("Sports One Group"), a sole proprietorship. The purchase price of the assets was \$99,500. In accordance with the guidance of ASC Topic 805, *Business Combinations* ("ASC 805") we determined that the assets acquired constitute a business and we acquired 100% of the business. We acquired the business in order to expand our electronic and mobile commerce (e-commerce and m-commerce) businesses to include health fitness and sports apparel.

As of September 30, 2013 the purchase price allocation of the acquisitions of the aforementioned business is preliminarily dependent on finalization of the Company's valuation assessment in accordance with ASC 805.

The preliminary price allocation is as follows:

Furniture and equipment	\$ 5,450
Internet domain names	22,500
Website	30,000
Customer and supplier lists	30,000
Goodwill	11,550
	<u>\$ 99,500</u>

**LifeApps Digital Media Inc.**  
**Notes to Condensed Consolidated Financial Statements**  
**September 30, 2013 and 2012**  
**(Unaudited)**

Revenue and operating income of Sports One Group since the acquisition date included in the consolidated statements of operations for the nine months ended September 30, 2013, was \$147,154 and \$356, respectively.

The following table sets forth the amounts of revenue and earnings of the company and Sports One Group as though the combination took place at the beginning of the nine month periods ended September 30, 2013 and 2012:

	<b>For the nine months ended September 30,</b>	
	<b>2013</b>	<b>2012</b>
	<u>2013</u>	<u>2012</u>
Revenue	<u>\$ 271,662</u>	<u>\$ 424,236</u>
Net loss	<u>\$ (601,403)</u>	<u>\$ (115,461)</u>

**Note 4. Intangible Assets**

At September 30, 2013 and December 31, 2012, intangible assets consist of the following:

	<b>September 30, 2013</b>	<b>December 31, 2012</b>
Internet domain names	<u>\$ 47,642</u>	<u>\$ 12,533</u>
Website	30,000	-
Customer and supplier lists	30,000	-
	107,642	12,533
Less accumulated amortization	<u>(24,361)</u>	<u>(7,867)</u>
	83,281	4,666
Goodwill	<u>11,550</u>	-
	<u>\$ 94,831</u>	<u>\$ 4,666</u>

We recognize goodwill and identifiable intangibles arising from the allocation of the purchase prices of assets acquired in accordance with ASC 805. Goodwill represents the excess of cost over fair value of all identifiable assets less any liabilities assumed. Additionally, ASC 805 gives guidance on five types of assets: marketing-related, customer-related, artistic-related, contract-related, and technology based intangible assets. We identified identifiable intangibles that are marketing-related, customer-related, and technology based.

**LifeApps Digital Media Inc.**

**Note 5. Amount Due Shareholder**

Parties, which can be a corporation or individual, are considered to be related if we have the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Companies are also considered to be related if they are subject to common control or common significant influence.

Amount due related party represents amounts paid on our behalf by an officer and shareholder of the Company. These advances are non-interest bearing, short term in nature and due on demand. The balance at September 30, 2013 and December 31, 2012 was \$6,487 and \$6,834, respectively.

**Note 6. Stock Based Compensation**

During 2012, our Board of Directors adopted the 2012 Equity Incentive Plan ("2012 Plan"), which was approved by our shareholders. The 2012 Plan provides for the issuance of up to 10,000,000 shares of our common stock. The plan provides for the award of options, stock appreciation rights, performance share awards, and restricted stock and stock units. The plan is administered by the Board of Directors.

During 2012, the Board of Directors authorized the issuance of 1,400,000 options to purchase shares of our common stock to employees and directors, and 900,000 options to purchase our common stock to non-employees of the Company who provide consulting services. During the nine months ended September 30, 2013, one employee and two contracts with non-employees were terminated. All previously unvested stock option expense in the amount of \$12,364 was reversed and credited to general and administrative expenses.

During the nine months ended September 30, 2013, the Board of Directors authorized the issuance of 3,600,000 options to purchase shares of our common stock to employees and directors, and 375,000 options to purchase our common stock to non-employees of the Company who provide consulting services.

Amounts charged to expense for the options granted to employees and non-employees was \$118,329 and \$32,465, for the nine and three month periods ended September 30, 2013. There were no expenses the same periods in 2012.

**Note 7. Outstanding Warrants**

There were no warrants issued during the nine months ended September 30, 2013. The following is a summary of outstanding warrants as of September 30, 2013:

**Note 8. Income Taxes**

We account for income taxes in interim periods in accordance with ASC Topic 740, *Income Taxes* ("ASC 740"). We have determined an estimated annual effective tax rate. The rate will be revised, if necessary, as of the end of each successive interim period during our fiscal year to our best current estimate. As of September 30, 2013 the estimated effective tax rate for the year will be zero.

There are open statutes of limitations for taxing authorities in federal and state jurisdictions to audit our tax returns from 2009 through the current period. Our policy is to account for income tax related interest and penalties in income tax expense in the statement of operations. There have been no income tax related interest or penalties assessed or recorded.

ASC 740 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This pronouncement also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition.

For the nine and three months ended September 30, 2013 and 2012 we did not have any interest and penalties associated with tax positions. As of September 30, 2013 we did not have any significant unrecognized uncertain tax positions.

**Note 9. Earnings Per Share**

We calculate earnings per share in accordance with ASC Topic 260 *Earnings Per Share*, which requires a dual presentation of basic and diluted earnings per share. Basic earnings per share are computed using the weighted average number of shares outstanding during the fiscal year. Diluted earnings per share represent basic earnings per share adjusted to include the potentially dilutive effect of outstanding stock options and warrants. The dilutive earnings per share were not calculated because we recorded net losses for the nine and three months ended September 30, 2013 and 2012, and the outstanding stock options and warrants are anti-dilutive.

### Overview

We are an emerging growth company and developer and designer of applications, fitness products, new media, digital magazines, publications, and next-generation social networks for sports, health, fitness and entertainment enthusiasts. We have a multimarket revenue strategy that incorporates mobile apps, digital magazines, publications, fitness training devices, web, social media and internet TV to engage consumers in multiple areas of sports, health, fitness and entertainment interests including medical, yoga, golf, tennis, running, soccer, cycling, and other health, fitness and sports topics.

We are building health, fitness and sports communities across multiple digital platforms including mobile apps, digital sports and fitness publications, sports and fitness products, sporting events, gateway platforms, online websites and social media. We believe that we will drive revenues by targeting sports, health and fitness specific communities and developing a relationship with its participants, delivering lifestyle content, social networking, skills and drills training, consumer fitness devices and nutritional content across multiple platforms including, but not limited to, Apple iOS and Google Android systems. LifeApps will invest in these sports, health and fitness communities to build customer loyalty and increase brand awareness by delivering digital content of interest and digitally enhanced physical consumer products that enrich and improve the user's sports, health and fitness lifestyle.

We were in the development stage from July 15, 2009 through March 31, 2013. Our fiscal year ending December 31, 2013 is the first year during which we are considered an operating company and is no longer in the development stage.

Our financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP"), which contemplates our continuation as a going concern. We have incurred losses to date of \$1,100,329. To date we have funded our operations through advances from a related party, issuance of convertible debt, and the sale of our common stock. We intend to raise additional funding through third party equity or debt financing. There is no certainty that funding will be available as needed. These factors raise substantial doubt about our ability to continue operating as a going concern. Our ability to continue our operations as a going concern, realize the carrying value of our assets, and discharge our liabilities in the normal course of business is dependent upon our ability to raise capital sufficient to fund our commitments and ongoing losses, and ultimately generate profitable operations.

## Recent Developments

On April 1, 2013, we entered into an Asset Purchase Agreement with Sports One Group and Performance Gear (“Sports One Group”), a sole proprietorship, to purchase certain assets related to a gateway platform which matches sports apparel manufacturers with distributors and purchasers. The purchase price of the Sports One Group assets was \$99,500. In accordance with the guidance of ASC Topic 805, *Business Combinations* (“ASC 8058”), we determined that the assets acquired constitute a business and we acquired 100% of the business. We acquired the Sports One Group business to expand our electronic and mobile commerce (e-commerce and m-commerce) businesses to include health fitness and sports apparel.

## Plan of Operations

We are a licensed developer and publisher of apps for the Apple App Store for iPhone, iPod touch, iPad and iPad mini. LifeApps is also a licensed developer on both Google Play and Amazon Appstore for Android. We have distributed apps/publications on all three platforms. Moving forward we are developing new apps, and exploring new opportunities pairing apps with physical retail and e-commerce/mobile-commerce products.

Our plan is to expand our digital product offerings to include a digital magazine the contents of which are centered on sports and fitness as well as to continue the development and expansion of our mobile platform applications. Our “YouWorkout” digital magazine is currently available for individual purchase or subscription.

We are also expanding our revenue generating power through the creation of new gateway digital platforms that combine e-commerce with mobile-commerce solutions for sports, health and fitness communities, to act as conduits or meeting places for users to engage in the commerce of sports, health and fitness products and services. These gateway platforms can also be utilized and distributed across the broader base of our suite of products.

We have begun developing physical sporting goods and fitness products that are partnered with related mobile apps and we launched the first of these efforts, the Golf Core Grip Workout System, in April 2013. The Golf Core Grip Workout System combines a tutorial app built on the LifeApps iOS Tutorial App Platform with a gym-quality fitness product that is being sold through e-commerce, mobile-commerce and retail channels. The Golf Core Grip app delivers the tutorial content for the fitness device and replaces the DVD tutorials traditionally found with such products. The Golf Core Grip was originally developed by a physician and was successfully sold in a limited run through the Titleist Performance Institute. LifeApps acquired the Core Grip and rebranded and repackaged the device for retail. We converted the original instructional DVD and added enhanced digital recording and social sharing functions into the Golf Core Grip Workout System app for iOS.

We continue to seek out innovative fitness consumer products where we can replace a traditional DVD tutorial with a mobile application. To that end, we are pursuing a strategy of building our own products combined with seeking agreements with companies with whom we can partner to bring such companies’ products to market with our enhanced formats.

We have begun operating Sports One Inc., a wholly owned subsidiary of the Company after the acquisition of certain assets related to a gateway platform which matches sports apparel manufacturers with distributors and purchasers. Our current customer base are primarily companies in the promotional advertising business that represent small and large companies. We expect to expand these operations by the addition of new product lines and the inclusion of our own products discussed above as well as expanding our customer base.

## Critical Accounting Policies

### *Use of Estimates*

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities in the balance sheets and revenues and expenses during the years reported. Actual results may differ from these estimates.

### *Inventory*

Inventory consists of finished goods, sports and fitness products, and is stated at the lower of cost or net realizable value, with cost being determined on a first-in first-out basis.

### *Intangibles*

Internet domain name costs are being amortized over the expected useful life of the domain name which we estimate to be is three years from the date of registering the domain name. In accordance with ASC Topic 350 *Intangibles – Goodwill and Other* (“ASC 350”), the costs to obtain and register an internet domain shall be capitalized. Website and customer and supplier lists are being amortized over three and five years, respectively, which are their estimated useful lives.

### *Goodwill*

Goodwill is initially recorded at fair value and not amortized, but is reviewed for impairment at least annually or more frequently if impairment indicators arise. Our goodwill is allocated by reporting unit and is evaluated for impairment by first performing a qualitative assessment to determine whether a quantitative goodwill test is necessary. If it is determined, based on qualitative factors, the fair value of the reporting unit may be more likely than not less than carrying amount, or if significant changes to economic factors related to the reporting unit have occurred that could materially impact fair value, a quantitative goodwill impairment test would be required. Additionally, we can elect to forgo the qualitative assessment and perform the quantitative test.

### *Revenue Recognition*

Revenue is derived primarily from the sale of sports and fitness apparel and equipment, and software applications designed for use on mobile devices such as smart phones and tablets. Revenue is recognized only when persuasive evidence of an arrangement exists, the fee is fixed or determinable, the product or service has been delivered, and collectability is probable.

We sell our software directly via Internet download through third party agents. We recognize revenue when payment is received from the agent. Payment is received net of commission paid to the agent, usually 70% to us and 30% to the agent. We record the net amount received as revenue.

We also publish and sell digital magazines through the internet. Magazines can be purchased as individual volumes or as a subscription. To date we have not had any subscription sales.

### *Research and development, Website Development Costs, and Software Development Costs*

All research and development costs are expensed as incurred. Software development costs eligible for capitalization under ASC 350-50, *Website Development Cost*, and ASC 985-20, *Software-Costs of Software to be Sold, Leased or Marketed*, were not material to our financial statements for the nine and three months ended September 30, 2013 and 2012. Research and development expenses amounted to \$30,286 and \$57,003 for nine months ended September 30, 2013 and 2012, respectively, and \$3,554 and \$12,598 for the three months ended September 30, 2013 and 2012, respectively. Research and development expenses were included in general and administrative expenses.

### *Advertising Costs*

We recognize advertising expense when incurred. Advertising expense was \$55,250 and \$20,257 for the nine months ended September 30, 2013 and 2012, respectively, and \$12,210 and \$8,708 for the three months ended September 30, 2013 and 2012, respectively.

### *Rent Expense*

We recognizes rent expense on a straight-line basis over the reasonably assured lease term as defined in ASC Topic 840, *Leases* (“ASC 840”). Our lease is short term and will be renewed on a month to month basis. Rent expense for the nine months ended September 30, 2013 and 2012, was \$15,499 and \$7,495, respectively. Rent expense for the three months ended September 30, 2013 and 2012, was \$6,160 and \$3,835, respectively.

## **Off-Balance Sheet Arrangements**

We have no off-balance sheet arrangements.

## **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

We are a smaller reporting company as defined by Rule 12b-2 of the Securities and Exchange Act of 1934, as amended (the "Exchange Act") and are not required to provide the information required under this item.

## **ITEM 4. CONTROLS AND PROCEDURES**

### **Evaluation of Disclosure Controls and Procedures**

Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act of 1934 (the "Exchange Act") is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. This information is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. It should be noted that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote.

Under the supervision and with the participation of our senior management, consisting of Robert Gayman, our chief executive officer, and Arnold Tinter, our chief financial officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act as of the end of the period covered by this report (the "Evaluation Date"). Based on this evaluation, our chief executive officer and our chief financial officer concluded, as of the Evaluation Date, that our disclosure controls and procedures were not effective.

As reported in our Annual Report on Form 10-K for the fiscal year ended December 31, 2012, our management has identified a control deficiency regarding inadequate segregation of accounting duties. Management believes that this deficiency is due to the small size of our accounting staff. To mitigate the current limited resources and limited employees, we rely heavily on the use of external legal and accounting professionals.

Subject to availability of funds, we will look to hire additional personnel with technical accounting expertise to further support our current accounting personnel. If and when implemented, the internal accounting department will be responsible for performing regular internal audits over financial functions and other operation functions. As necessary, we will continue to engage consultants or an outside accounting firm in order to ensure proper accounting for our consolidated financial statements.

Management believes that the hiring of additional personnel who have the technical expertise and knowledge with the non-routine or technical issues we have encountered in the past will result in both proper recording of these transactions and a much more knowledgeable finance department as a whole. Due to the fact that our internal accounting staff consists of only one officer overseeing all transactions, additional personnel will also ensure the proper segregation of duties and provide more checks and balances within the department. Additional personnel will also provide the cross training needed to support us if personnel turnover issues within the department occur. We believe this will greatly decrease any control and procedure issues we may encounter in the future.

### **Limitations on Effectiveness of Controls and Procedures**

Our management, including our Chief Executive Officer (Principal Executive Officer) and our Chief Financial Officer (Principal Financial Officer), does not expect that our disclosure controls and procedures will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within our company have been detected. These inherent limitations include, but are not limited to, the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

### **Changes in Internal Control over Financial Reporting**

There were no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) during the quarter ended September 30, 2013 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
