AIM EXPLORATION INC.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

May 31, 2017 (unaudited)

NOTE 1 - NATURE OF OPERATIONS AND BASIS OF PRESENTATION

Aim Exploration, Inc. ("Company") is an exploration stage company as defined by FASB ASC 915. The Company was organized to engage in mineral exploration and has incurred losses totaling \$4,428,233 since inception. The Company was incorporated on February 18, 2010 in the State of Nevada and established a fiscal year end at August 31.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The condensed consolidated financial statements present the condensed consolidated balance sheets, condensed consolidated statements of operations and condensed consolidated cash flows of the Company. These financial statements are presented in United States dollars and have been prepared in accordance with accounting principles generally accepted in the United States.

Principles of Consolidation

The condensed consolidated statements incorporate the financial statements of the Company and its wholly-owned subsidiary, Aim Exploration SA, of Peru. All significant intercompany accounts and transactions have been eliminated in consolidation.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers highly liquid financial instruments purchased with a maturity of three months or less to be cash equivalents. There were no cash equivalents at May 31, 2017 and 2016.

Functional Currency

The financial statements are presented in United States dollars, which is also the functional currency of the Company. The functional currency of its subsidiary is the Peruvian Nuevos Sol.

Advertising

Advertising costs are expensed as incurred. As of May 31, 2017, no advertising costs have been incurred.

Property

The Company does not own or rent any property. The Company's office space is being provided by the president at no charge to the Company.

Use of Estimates and Assumptions

Preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Income Taxes

The Company follows the liability method of accounting for income taxes. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax balances. Deferred tax assets and liabilities are measured using enacted or substantially enacted tax rates expected to apply to the taxable income in the years in which those differences are expected to be recovered or settled. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the date of enactment or substantive enactment.

Fair Value of Financial Instruments

The Company has adopted Accounting Standards Codification subtopic 820-10, Fair Value Measurements and Disclosures ("ASC 820-10"). ASC 820-10 defines fair value, establishes a framework for measuring fair value and enhances fair value measurement disclosure The adoption of ASC 820-10 requires that the Company disclose assets and liabilities that are recognized and measured at fair value on a non-recurring basis, presented in a three-tier fair value hierarchy, as follows:

- Level 1. Observable inputs such as quoted prices in active markets;
- Level 2. Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3. Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The following presents the gross value of assets that were measured and recognized at fair value:

- Level 1: \$16,790 - Level 2: none
- Level 3: none

The Company adopted ASC 825-10, Financial Instruments, which permits entities to choose to measure many financial instruments and certain other items at fair value. The adoption of this standard did not have an impact on the Company's financial position, results of operations or cash flows. The carrying value of cash and cash equivalents, accounts payable and accrued expenses, as reflected in the balance sheets, approximate fair value because of the short-term maturity of these instruments.

Derivative Liability

The conversion features embedded in the outstanding convertible notes payable are separately accounted for as a derivative liability in accordance with ASC 815-15, Embedded Derivative. This is because the number of shares that may be acquired upon conversion is indeterminable as the conversion rates are expressed as a percentage discount to the current fair market value of common stock at the time of conversion. Derivative liabilities are valued when the host instruments (convertible notes) are initially issued and are also revalued at each reporting date, with the change in the respective fair values being recorded as a gain or loss to the derivative liability.

Net Loss per Share

Basic loss per share includes no dilution and is computed by dividing loss available to common stockholders by the weighted average number of common shares outstanding for the period. Dilutive loss per share reflects the potential dilution of securities that could share in the losses of the Company. Because the Company does not have any potentially dilutive securities, the accompanying presentation is only of basic loss per share.

Impairment of Long-Lived Assets

In accordance with ASC 360, Property Plant and Equipment, the Company tests long-lived assets or asset groups for recoverability when events or changes in circumstances indicate that their carrying amount may not be recoverable. Circumstances which could trigger a review include, but are not limited to: significant decreases in the market price of the asset; significant adverse changes in the business climate or legal factors; accumulation of costs significantly in excess of the amount originally expected for the acquisition or construction of the asset; current period cash flow or operating losses combined with a history of losses or a forecast of continuing losses associated with the use of the asset; and current expectation that the asset will more likely than not be sold or disposed significantly before the end of its estimated useful life. Recoverability is assessed based on the carrying amount of the asset and its fair value which is generally determined based on the sum of the undiscounted cash flows expected to result from the use and the eventual disposal of the asset, as well as specific appraisal in certain instances. An impairment loss is recognized when the carrying amount is not recoverable and exceeds fair value.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Mineral Property Costs

Mineral property exploration costs are expensed as incurred until such time as economic reserves are quantified. To date, the Company has not established any proven or probable reserves on its mineral properties. The Company has capitalized \$804,656 of mineral property acquisition costs reflecting its investment in its properties.

Stock-based Compensation

The Company adopted FASB guidance on stock based compensation upon inception at February 18, 2010. ASC 718-10-30-2 requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values. The Company has not had any stock and stock options issued for services and compensation for the period from inception (February 18, 2010) through May 31, 2017.

Recent Accounting Pronouncements

In April 2014, the FASB issued ASU 2014-08, *Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity.* The amendments in the ASU change the criteria for reporting discontinued operations while enhancing disclosures in this area. It also addresses sources of confusion and inconsistent application related to financial reporting of discontinued operations guidance in U.S. GAAP. Under the new guidance, only disposals representing a strategic shift in operations should be presented as discontinued operations. In addition, the new guidance requires expanded disclosures about discontinued operations that will provide financial statement users with more information about the assets, liabilities, income, and expenses of discontinued operations. The amendments in the ASU are effective in the first quarter of 2015 for public organizations with calendar year ends. Early adoption is permitted.

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers*. This new standard will replace most existing revenue recognition guidance in U.S. GAAP. The core principle of the ASU is that an entity should recognize revenue for the transfer of goods or services equal to the amount it expects to receive for those goods and services. The ASU requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and estimates, and changes in those estimates. The ASU will be effective for the Company beginning January 1, 2017, and allows for both retrospective and modified- retrospective methods of adoption. The Company is in the process of determining the method of adoption it will elect and is currently assessing the impact of this ASU on its consolidated financial statements and footnote disclosures.

In August 2014, the FASB issued ASU 2014-15, *Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern*. The amendment in the ASU provides guidance on determining when and how to disclose going-concern uncertainties in the financial statements. The new standard requires management to perform interim and annual assessments of an entity's ability to continue as a going concern within one year of the date the financial statements are issued. An entity must provide certain disclosures if conditions or events raise substantial doubt about the entity's ability to continue as a going concern. The amendments in this Update are effective for annual periods and interim periods within those annual periods beginning after December 15, 2016. Earlier adoption is permitted. The Company does not expect the adoption to have a significant impact on its consolidated financial statements.

In August, 2015, the FASB issued ASU No. 2015-14, Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date. The amendment in this ASU defers the effective date of ASU No. 2014-09 for all entities for one year. Public business entities, certain not-for-profit entities, and certain employee benefit plans should apply the guidance in ASU 2014-09 to annual reporting periods beginning December 15, 2017, including interim reporting periods within that reporting period. Earlier application is permitted only as of annual reporting periods beginning after December 31, 2016, including interim reporting periods with that reporting period.

In September, 2015, the FASB issued ASU No. 2015-16, *Business Combinations (Topic 805)*. Topic 805 requires that an acquirer retrospectively adjust provisional amounts recognized in a business combination, during the measurement period. To simplify the accounting for adjustments made to provisional amounts, the amendments in the Update require that the acquirer recognize adjustments to provisional amounts that are identified during the measurement period in the reporting period in which the adjustment amount is determined. The acquirer is required to also record, in the same

period's financial statements, the effect on earnings of changes in depreciation, amortization, or other income effects, if any, as a result of the change to the provisional amounts, calculated as if the accounting had been completed at the acquisition date. In addition an entity is required to present separately on the face of the income statement or disclose in the notes to the financial statements the portion of the amount recorded in current-period earnings by line item that would have been recorded in previous reporting periods if the adjustment to the provisional amounts had been recognized as of the acquisition date. The adoption of ASU 2015-016 is not expected to have a material effect on the Company's financial statements.

Other recent accounting pronouncements issued by the FASB (including its Emerging Issues Task Force), the American Institute of Certified Public Accountants, and the United States Securities and Exchange Commission did not or are not believed by management to have a material impact on the Company's present or future consolidated financial statements.

NOTE 3 – GOING CONCERN

The Company's financial statements are prepared in accordance with generally accepted accounting principles applicable to a going concern. This contemplates the realization of assets and the liquidation of liabilities in the normal course of business. Currently, the Company has a working capital deficit of \$2,245,479, an accumulated deficit of \$4,428,233 and net loss from operations since inception of \$4,428,233. The Company does not have a source of revenue sufficient to cover its operation costs giving substantial doubt for it to continue as a going concern. The Company will be dependent upon the raising of additional capital through placement of our common stock in order to implement its business plan, or merging with an operating company. There can be no assurance that the Company will be successful in either situation in order to continue as a going concern. The Company is funding its initial operations by way of issuing common shares

The officers and directors have committed to advancing certain operating costs of the Company, including Legal, Audit, Transfer Agency and Edgarizing costs.

NOTE 4 – MINERAL PROPERTY

Peruvian Mining Claims:

On June 23, 2014, Aim Exploration, Inc. entered into a Mining Concession Asset Acquisition Agreement (the "Agreement") with Percana Mining Corp. ("Percana"). Pursuant to the Agreement, the Company acquired three separate mining concessions. Two of the concession titles are unencumbered and comprise 40% of the mining concessions. These two concessions are known as El Tunel Del Tiempo 1 code 11060780 and El Tunel Del Tiempo 2 code 11060781, and the registered ownership of these two concessions have been transferred to the Company. The third concession property known as Agujeros Negros MA-AG comprising the remaining 60% has also been transferred to the Company.

In consideration for the above concessions, the Company has issued 63,000 restricted common shares (15,750,000 restricted common shares preconsolidation) (Note 6) to Percana in two separate blocks; the first block consists of 25,200 common shares (6,300,000 common shares pre-consolidation) which are to be held in escrow until either the Company raises \$1,000,000 or when Percana waives this requirement. The second block consists of 37,800 common shares (9,450,000 common shares pre-consolidation) which are to be held in escrow until such time as the Company is satisfied at its discretion that any arbitration issues have been resolved with the third concession, at which time the shares may be released out of escrow at the option of Percana. The fair value of these shares is \$326,969 which was based on fair market value. On April 25, 2016, the Company entered into an amendment to its Agreement with Percana and issued an additional 15,687,000 common shares to Percana to bring its post-consolidation shareholdings back to 15,750,000 common shares. The fair value of these additional shares is \$15,687. An additional 220,000,000 common shares were issued on September 14, 2016, pursuant to this amended agreement. The fair values of these shares is \$462,000. Furthermore, under the terms of the amended Agreement, the Company agreed to issue additional common shares to Percana at any time common shares are issued to any director and/or controlling shareholder of the Company, the number of common shares issued to Percana to be equal to those issued to the director and/or controlling shareholder.

NOTE 4 - MINERAL PROPERTY (CONTINUED)

Peruvian Mining Claims (Continued):

These Mining Concessions were acquired based on the assumption the properties are rich in high grade Anthracite Coal, currently there are 20 small tunnels on the property already producing anthracite coal which was being mined by illegal miners. Testing of the coal samples was performed indicating the presence of high-grade anthracite coal. Prior to acquisition AIM reviewed a non-compliant technical report prepared by Engineers/Geologists together with hiring a US based firm Gustavson Associates to visit the property and review the reports. The firm provided AIM with a report, which included recommendation for further exploration.

One of the Company's director is also a director of Percana.

NOTE 5 - CONVERTIBLE NOTE

During the nine months ended May 31, 2017, the Company issued convertible notes with a principal balance of \$63,000, with maturity dates of February 28, 2018, and an interest rate per annum of 22%. The principal is convertible into shares of the Company at a conversion rate equal to 61% of the lowest trading price of the Company's common stock for the fifteen prior trading days, as defined in the agreements.

During the nine months ended May 31, 2017, 9,891,175 common shares were issued in relation to conversion options exercised during the period, which reduced the convertible debt by \$8,730. Of this amount, \$7,650 related to principal of the convertible notes and \$1,080 related to accrued interest.

An additional 400,000 common shares were issued in relation to related party conversion options exercised during the period, which reduced the related party convertible debt by \$54,000.

An embedded derivative has been bifurcated and accounted for separately from the debt host. Accordingly, the Company recorded the estimated derivative as a liability upon issuance of the convertible notes. The derivative liability was recorded by reducing the carrying value of the convertible notes. The fair value of the embedded derivative fluctuates with the fair value of the Company's common stock, which is calculated each quarter using the Black-Scholes valuation model. During the nine months ended May 31, 2017, the Company recognized change in fair value of the derivative liability of \$76,270 related to the change in fair value of the conversion feature. The change in fair value of the conversion feature was recorded through operating results.

During the nine months ended May 31, 2017, the Company repaid notes with a principal balance of \$18,302 plus accrued interest in the amount of \$3,014. The Company recorded a gain on the repayment of the convertible note in the amount of \$33,283, which was credited to the additional paid in capital account. During the same period, convertible notes with a principal balance of \$100,975 plus accrued interest in the amount of \$14,567 were assumed by related parties.

The following convertible notes were outstanding as at May 31, 2017 and August 31, 2016:

	 May 31, 2017		August 31, 2016
Note balance	\$ 376,537	\$	440,464

	\$ 372,326	\$	433,446
The following convertible notes to related parties were outstanding as at May 31, 2017 and August 31, 2016:			
	May 31, 2017	,	August 31, 2016
Note balance	\$ 216,975	\$	170,000
Accrued interest	 53,868		21,264
	\$ 270,843	\$	191,264

NOTE 5 - CONVERTIBLE NOTE (CONTINUED)

The convertible note debt discount is being accreted to finance costs using the straight-line method over the contractual term of the debt. During the period ended May 31, 2017, the Company recognized in the normal course accretion expense of \$47,865.

NOTE 6 - CAPITAL STOCK

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Safe Harbor Statement

This report on Form 10-Q contains certain forward-looking statements. All statements other than statements of historical fact are "forward-looking statements" for purposes of these provisions, including any projections of earnings, revenues, or other financial items; any statements of the plans, strategies, and objectives of management for future operation; any statements concerning proposed new products, services, or developments; any statements regarding future economic conditions or performance; statements of belief; and any statement of assumptions underlying any of the foregoing. Such forward-looking statements are subject to inherent risks and uncertainties, and actual results could differ materially from those anticipated by the forward-looking statements.

These forward-looking statements involve significant risks and uncertainties, including, but not limited to, the following: competition, promotional costs, and risk of declining revenues. Our actual results could differ materially from those anticipated in such forward-looking statements as a result of a number of factors. These forward-looking statements are made as of the date of this filing, and we assume no obligation to update such forward-looking statements. The following discusses our financial condition and results of operations based upon our financial statements which have been prepared in conformity with accounting principles generally accepted in the United States. It should be read in conjunction with our financial statements and the notes thereto included elsewhere herein.

The following discussion should be read in conjunction with our financial statements, including the notes thereto, appearing elsewhere in this Form 10-Q. The discussions of results, causes and trends should not be construed to imply any conclusion that these results or trends will necessarily continue into the future.

Results of Operation

Our financial statements have been prepared assuming that we will continue as a going concern and, accordingly, do not include adjustments relating to the recoverability and realization of assets and classification of liabilities that might be necessary should we be unable to continue in operation.

We expect we will require additional capital to meet our long term operating requirements. We expect to raise additional capital through, among other things, the sale of equity or debt securities.

Results of Operations for the Nine Months Ended May 31, 2017 Compared to the Same Period in 2016

No Revenues

Since our inception on February 18, 2010 to May 31, 2017, we have not yet earned any revenues. As of May 31, 2017, we have an accumulated deficit of \$4,428,233. At this time, our ability to generate any significant revenues continues to be uncertain.

Net Loss

We incurred a net loss of \$1,530,930 for the nine months ended May 31, 2017 compared to our net loss of \$919,327 for the nine months ended May 31, 2016. The increase in net loss was mainly due to increased director's fees, office expenses, and public relations, as well as a loss recorded on the repurchase of related party debt. Since February 18, 2010 (date of inception) to May 31, 2017, we have incurred a net loss of \$4,428,233.

Expenses

Our total operating expenses for the nine months ended May 31, 2017 were \$1,530,930 compared to \$919,327, for the same period in 2016. Our consulting fees decreased by \$12,005 from \$64,437 to \$52,432 for the nine months ended May 31, 2017. Director's fees paid to related parties increased by \$388,833 from \$Nil to \$388,833 for the nine months ended May 31, 2017. Filing fees increased by \$2,106 from \$9,835 to \$11,941 for the nine months ended May 31, 2017. Management fees paid to related parties decreased by \$27,000 from \$162,000 to \$135,000 for the nine months ended May 31, 2017. Office and general costs consisting of bank charges, travel, meals and entertainment, office maintenance, communications (cellular, internet, fax and telephone), courier, postage costs and office supplies, decreased by \$9,874 from \$40,509 to \$30,635 for the nine months ended May 31, 2017. Professional fees decreased by \$42,650 from \$105,016 to \$62,366 for the nine months ended May 31, 2017. Public relation costs increased by \$28,447 from \$38,868 to \$67,315 for the nine months ended May 31, 2017.

In addition, we incurred costs related to the convertible notes issued and outstanding during the comparable periods. Interest expense relating to such notes increased by \$8,497 from \$46,143 for the nine months ended May 31, 2016 to \$54,640 for the nine months ended May 31, 2017. Accretion decreased by \$404,961 from \$452,826 to \$47,865 for the nine months ended May 31, 2017. Finance costs decreased by \$138,008 from \$172,601 to \$34,593 for the nine months ended May 31, 2017. A change in the fair value of the derivative liability in the amount of \$76,270 was recognized during the nine months ended May 31, 2017 in comparison to a change of \$187,908 during the nine months ended May 31, 2016.

Liquidity and Capital Resources

Nine Month Period Ended May 31, 2017

As at May 31, 2017, our total assets were \$873,355 compared to \$415,946 in total assets at August 31, 2016. As at May 31, 2017, our current liabilities were \$2,314,178 compared to \$2,301,125 in current liabilities at August 31, 2016; these liabilities were comprised of accounts payable and accrued liabilities of \$270,272 (2016: \$211,601), loans payable of \$98,350 (2016: \$69,350), loans from related party of \$528,414 (2016: \$598,955), convertible notes due to related parties of \$270,843 (2016: \$191,264), convertible notes, net of unamortized discount of \$372,326 (2016: \$433,446) and a derivative liability of \$773,973 (2016: \$796,509). Stockholders' deficit was \$1,440,823 as of May 31, 2017, compared to stockholders' deficit of \$1,885,179 as of August 31, 2016.

Cash Flows from Operating Activities

We have not generated positive cash flows from operating activities. For the nine month period ended May 31, 2017, net cash flows used by operating activities was \$194,635, compared to \$306,108 during the same period in 2016.

Cash Flows from Financing Activities

We have financed our operations primarily from either advancements, convertible notes or the issuance of equity. For the nine month period ended May 31, 2017, net cash provided by financing activities was \$211,008, compared to \$304,795 provided by the same period in 2016.

Plan of Operation

Our plan of operation for the next twelve months is to grow our business through the exploration of our current properties and additional properties that we acquire.

Going Concern

Our independent auditors' review report accompanying our August 31, 2016 financial statements contained an explanatory paragraph expressing substantial doubt about our ability to continue as a going concern. The financial statements have been prepared "assuming that we will continue as a going concern," which contemplates that we will realize our assets and satisfy our liabilities and commitments in the ordinary course of business.

Inflation

The amounts presented in the financial statements do not provide for the effect of inflation on our operations or financial position. The net operating losses shown would be greater than reported if the effects of inflation were reflected either by charging operations with amounts that represent replacement costs or by using other inflation adjustments.

Off-Balance Sheet Arrangements

As of May 31, 2017, we had no off-balance sheet transactions that have or are reasonably likely to have a current or future effect on our financial condition, changes in our financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

ITEM 4. CONTROLS AND PROCEDURES

Management's Report on Internal Control over Financial Reporting.

Our internal control over financial reporting is a process that, under the supervision of and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, was designed to provide reasonable assurances regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Our internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect our transactions and dispositions of our assets; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted according principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and our trustees; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition of our assets that could have a material effect on our financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that our controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

As management, it is our responsibility to establish and maintain adequate internal control over financial reporting. As of May 31, 2017, under the supervision and with participation of our management, including our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of our internal control over financial reporting using criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"). Based on our evaluation, we concluded that the Company maintained ineffective internal control over financial reporting as of May 31, 2017, based on criteria established in the Internal Control Integrated Framework issued by the COSO.

This quarterly report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this quarterly report.

Evaluation of disclosure controls and procedures.

As of May 31, 2017, the Company's chief executive officer and chief financial officer conducted an evaluation regarding the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under the Exchange Act). Based upon the evaluation of these controls and procedures, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were ineffective as of the date of filing this quarterly report applicable for the period covered by this report.

Changes in internal controls.

During the period covered by this report, no changes occurred in our internal control over financial reporting that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

A company called Tarpon Bay commenced legal action with the company as at August 30, 2016 claiming the company owed them \$78,678. The company is disputing the claim and it is currently in the hands of the courts. This relates to the S-1 registration statement that became effective June 1, 2015. The S-1 that was registered in the name of Southridge Capital and the amount of the claim represents the "standby fee". In view of the fact that the equity line of credit with Southridge Capital was completed wrong and could not be utilized technically Southridge or Tarpon Bay was not on "standby". The S-1 registration statement was approved by Southridge (Tarpon Bay) in- house legal department prior to submitting to the SEC for registration." There are no proceedings in which any of our directors, officers or affiliates, or any registered or beneficial stockholder, is an adverse party or has a material interest adverse to our interest. On April 11, 2017, Tarpon Bay dismissed the action without prejudice.

A company called LG Capital Funding LLC commenced legal action with the company as at December 22, 2016, claiming the company owed them \$130,000. The company is defending its position and it is currently in the hands of the courts. This relates to a convertible note held by LG Capital Funding LLC in the amount of \$57,875 and dated June 5, 2016. Following conversions, the current principal amount owing is \$32,500 plus accrued interest.

A company called Adars Bay LLC commenced legal action with the company as at February 21, 2017, claiming the company owed them \$200,000. The company is defending its position and it is currently in the hands of the courts. This relates to a convertible note held by Adars Bay LLC in the amount of \$45,000 and dated November 6, 2014. Following conversions and payment by the company, the current principal amount owing is \$24,000 plus accrued interest.
