## FORWARD-LOOKING STATEMENTS

This annual report on Form 10-K for Klever Marketing, Inc. ("Klever" or the "Company") and the exhibits attached hereto contain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward looking statements concern the Company's anticipated results and developments in the Company's operations in future periods, planned development of the Company's technology, plans related to its business and other matters that may occur in the future. These statements relate to analyses and other information that are based on forecasts of future results, estimates of amounts not yet determinable and assumptions of management. Such forward-looking statements include, among others, those statements including the words "expects", "anticipates", "intends", "believes" and similar language. Our actual results may differ significantly from those projected in the forward-looking statements. Factors that might cause or contribute to such differences include, but are not limited to, those discussed in the section "Risk Factors." We undertake no obligation to publicly release any revisions to the forward-looking statements or reflect events or circumstances after the date of this report.

Although we believe that the expectations reflected in these forward-looking statements are based on reasonable assumptions, there are a number of risks and uncertainties that could cause actual results to differ materially from such forward-looking statements. These factors include among others:

- Our ability to raise sufficient capital to fund the development of our technology and continue to fund operating expenses;
- Our ability to get our technology to work in accordance with our technical specifications;
- Our ability to attract customers to our products once they are developed;
- Our ability to attract and retain the necessary personnel with the expertise needed to ensure that we can operate the Company effectively.
- Actions or inactions of third-party contractors and vendors;
- Our ability to successfully patent and protect our intellectual property.
- The potential that our competitors will get their products to market ahead of us.
- General economic conditions.

This list is not exhaustive of the factors that may affect our forward-looking statements. Some of the important risks and uncertainties that could affect forward-looking statements are described further under the sections titled "Description of the Business", "Risk Factors and Uncertainties", and "Management's Discussion and Analysis". Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, believed, estimated or expected. We caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made. We disclaim any obligation subsequently to revise any forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

We qualify all the forward-looking statements contained in this annual report on Form 10-K by the foregoing cautionary statements.

## PART I

### ITEM 1. DESCRIPTION OF THE BUSINESS

#### General

Klever Marketing, Inc. was formed for the purpose of creating a vehicle to obtain capital, to file and acquire patents, to seek out, investigate, develop, manufacture and market electronic in-store advertising, directory and coupon services which have potential for profit. The Company has successfully conducted two in-store demonstrations of its technology – the latest being in 2009 with the release of the Giving Cart and its Retailer Chime-Time Awards Program. Subsequently, in 2010, the Company shifted its business model to mobile technology and has aggressively developed new applications using this technology, which it expects to market and release in the near future. The Company is currently testing its mobile technology in a pilot store in Anaheim, California.

#### History

The Company, which began as a part of Information Resources, Inc. ("IRI") in 1987, was incorporated as a subsidiary of IRI under the laws of the State of Delaware on December 8, 1989, and was fully distributed to the stockholders of IRI in a spinoff on October 31, 1990. At the time of the spinoff, a portion of the business and assets of the Company included a software operation in Australia, which was sold in March, 1993 called VideOCart, Inc.. VideOCart, Inc. filed petitions for relief under Chapter 11 bankruptcy in December 1993. The Company was inactive until July 5, 1996 when the Company merged with Klever Kart, Inc. in a reverse merger and changed its name to Klever Marketing, Inc. During the period from July 5, 1996 to December 31, 2012, the Company was in a development stage, except for an approximate 2-month period in 2000 when the Company generated revenue from installations of their Klever-Kart system in stores.

In August 2004, the Company signed a partnership contract with Fujitsu Transaction Solutions ("Fujitsu" or "FTXS"). Under this contract, Fujitsu committed to manufacture and develop the hardware for a cart-based, advertising and promotional device offering (the U-Scan Shopping Cart), to develop relevant and required software and applications to support the device, to act as sales lead for the solution and hardware sell-in process and to provide for technical installations, IT implementation, and support for all retail locations. The Company and Fujitsu agreed to jointly share responsibility for marketing into Fujitsu's current retail client base for the initial nationwide sales effort. The Company likewise agreed to act as sales lead for the participant sell-in of advertising and promotion space to both retailers and manufacturers.

In 2007, the Company was informed by Fujitsu that they were restructuring their US management team and had reprioritized their go-to-market model, which would no longer include pursuing the joint deployment of U-Scan Shopping Carts in the US marketplace, as this was no longer part of their US business strategy. As a result, Fujitsu amicably disengaged from collaborative deployment discussions with the Company. Fujitsu paid the Company \$25,000 related to the sale of its international Patents and Patent work done by the Company on Fujitsu's behalf. Importantly post-Fujitsu through 2008, the Company pursued alternative deployment approaches; continued efforts to protect its Patents against potential infringement; and explored opportunities to deploy its product with interested retailers.

During 2009, The Company made a number of significant structural changes, followed by a successful rollout and demonstration of an updated Giving Cart™ product with improved location technology, coupon delivery and product selection data collection – all accompanied by continued strengthening of its patent portfolio. The prior board of directors resigned at the end of 2008 and a new, revitalized board of directors was installed in January, 2009 with plans to develop a technically improved, significantly lower cost wireless shopping cart unit for installation with a major retailer chain. This upgraded unit was designated the Giving Cart™ with its Retailer Chime Time™ Rewards Program. The Company's founder, Paul G. Begum, was reinstated as Chairman of the Board and is the current operating CEO. Under the returning Chairman's guidance, the Company was able to focus its resources on new technology developments. Financing was obtained for an updated wireless portable shopping cart unit taking advantage of improved technologies available since the last product release. This unit was produced at a significantly lower cost with significant software improvements that allow for rapid and efficient data updates to improve the effectiveness of advertising.

The Company achieved a rapid 6-month product development, and a pilot store was installed in August, 2009 followed by a successful 3-month product demonstration at The Market in Park City, Utah.

To continue to protect the Company's patent rights, our patent attorneys filed and obtained additional trademarks, including comprehensive new "wrap around" patents.

## **2012 Mobile Application Development and Implementation**

The Company accomplished its goals for 2012. The Alpha release for our KleverShop® application was completed in February 2012. By April we acquired a full product database and API from Google, which allowed us to reach our Beta release in early May 2012. Following test operations, we applied for KleverShop® application approval with Apple which was granted.

As soon as the KleverShop® application completed Beta testing, our focus shifted to Android development and approval. Android development took longer than anticipated while a number of technical solutions were added and ease of use enhancements were made. Android approval was received in November with improvements that were coordinated into the Apple version.

During the summer months, the Company selected its demonstration market partner, Wholesome Choice in Anaheim, CA. This market turned out to be very beneficial to the Company as a platform for testing KleverShop® with our sample customer base. We integrated the Wholesome Choice product database with the Google product database, and were then able to offer promotions on any product, allow scanning of any product, and redemption coupons at store checkout. The current technology uses the store's portable scanners at checkout which read our KleverShop® codes. While this process works effectively, our next step is to process these transactions through KleverKloud™ providing opportunities for greater personal contact between the checker and customer.

Our KleverDash™ retailer/supplier promotion management dashboard finished its phase 1 programming in June 2012 and has been tested in our demonstration market. It provides real-time management of promotional campaigns and redemptions, either adding or changing the promotion as redemption trends are received or as available budget limits are reached.

On top of all this, we also finished and tested our Chime-Time Awards™ program where shoppers are able to earn points for shopping at a particular market, receive randomly selected merchandise coupon awards while shopping in the store and participate in additional in-store promotions while shopping.

Important to the strengthening of our Company's assets was the progress made on securing patents and trademarks this year. Klever has been a leader in developing new technologies in digitized marketing, and it has been a critical objective for our Company to obtain patents to protect the unique product developments we have made. KleverShop® and KleverBank® are now registered trademarks, and KleverDash™ and KleverKloud™ have met the basic requirements and are now published trademarks. The Company continues to maintain patents on its points bank for coupon redemption, its method for influencing consumers to purchase CPG products, and its system for incentivizing shoppers using points rewards.

## **Anticipated Business Development in the Next 12 Months**

During 2013, the Company intends to move forward along several paths. We will continue to strengthen our balance sheet, and reduce our outstanding debt and seek additional capital investment. Additionally, we will be working with an investment relations company to strengthen public awareness of our Company's investment potential.. We will strengthen our KleverShop® and KleverDash™ systems to improve the consumer experience and ability of suppliers to manage their promotional programs. We are looking to expand into a regional super market chain of moderate size to test the multi-store usability of our software systems, and by late fall we are targeting to land a major supermarket chain. By that time we expect to have promotional relationships with numerous product suppliers. We will begin heavily promoting our KleverBank® system for promotions management and consumer redemption, which, if successful, should place our Company in an advantageous position. We, of course aren't the only Company developing digital solutions for coupon management. There are several applications on the market now; but in our opinion these have limited capability. We expect to differentiate ourselves by being a full service digital marketing provider to consumers, retailers and suppliers with platforms to meet all of their promotional needs. Notable progress is being made, and the Company is moving forward to an exciting future. However, we must caution the reader that Klever Marketing is still a development stage company, and no revenue contracts have yet been signed. No assurance or warranty can be given that the Company will be successful in implementing the efforts described in this report.

## ITEM 1A. RISK FACTORS AND UNCERTAINTIES

Readers should carefully consider the risks and uncertainties described below before deciding whether to invest in shares of our common stock.

Our failure to successfully address the risks and uncertainties described below would have a material adverse effect on our business, financial condition and/or results of operations, and the trading price of our common stock may decline and investors may lose all or part of their investment. We cannot assure you that we will successfully address these risks or other unknown risks that may affect our business.

As an enterprise engaged in the development of new technology, our business is inherently risky. Our common shares are considered speculative during the development of our new business operations. Prospective investors should consider carefully the risk factors set out below.

***We need to continue as a going concern if our business is to succeed.***

Our independent accountant's report to our audited consolidated financial statements for the year ended December 31, 2012, indicates that there are a number of factors that raise substantial risks about our ability to continue as a going concern. Such factors identified in the report are our accumulated deficit since inception, our failure to attain profitable operations and our dependence upon obtaining adequate additional financing to pay our liabilities. If we are not able to continue as a going concern, investors could lose their investments.

***Because of the unique difficulties and uncertainties inherent in technology development, we face a risk of business failure.***

Potential investors should be aware of the difficulties normally encountered by companies developing new technology and the high rate of failure of such enterprises. The likelihood of success must be considered in light of the problems, expenses, difficulties, complications and delays encountered in connection with the development of new technology with limited personnel and financial means. These potential problems include, but are not limited to, unanticipated technical problems that extend the time and cost of product development, or unanticipated problems with the operation of our technology or that with which we are licensing that also extend the time and cost of product development.

***If we do not obtain additional financing, our business will fail.***

Our current operating funds are less than necessary to complete the full development and marketing of our mobile products, and we will need to obtain additional financing in order to complete our business plan. We currently have minimal operations and no income.

Our business plan calls for significant expenses in connection with developing our mobile phone technology and paying our current obligations. The Company currently does not have sufficient funds to complete the development of its technology and to pay its obligations. As a result, the Company will require additional financing to execute its business plan.

We do not currently have any firm arrangements for financing, and we can provide no assurance to investors that we will be able to find such additional financing if required. Obtaining additional financing is subject to a number of factors, including investor acceptance of our technology and current financial condition as well as general market conditions. These factors affect the timing, amount, terms or conditions of additional financing unavailable to us. And if additional financing is not arranged, the company faces the risk of going out of business.

The most likely source of future funds presently available to us is through the additional sale of private equity capital or through a convertible debt instrument. Any sale of share capital will result in dilution to existing shareholders.

There is no history upon which to base any assumption as to the likelihood we will prove successful, and we can provide investors with no assurance that we will generate any operating revenues or achieve profitable operations. If we are unsuccessful in addressing these risks, our business will most likely fail.

***Because the SEC imposes additional sales practice requirements on brokers who deal in our shares that are penny stocks, some brokers may be unwilling to trade them. This means that investors may have difficulty reselling their shares and may cause the price of the shares to decline.***

Our shares qualify as penny stocks and are covered by Section 15(g) of the Securities Exchange Act of 1934, which imposes additional sales practice requirements on broker/dealers who sell our securities in this offering or in the aftermarket. In particular, prior to selling a penny stock, broker/dealers must give the prospective customer a risk disclosure document that: contains a description of the nature and level of risk in the market for penny stocks in both public offerings and secondary trading; contains a description of the broker/dealers' duties to the customer and of the rights and remedies available to the customer with respect to violations of such duties or other requirements of Federal securities laws; contains a brief, clear, narrative description of a dealer market, including "bid" and "ask" prices for penny stocks and the significance of the spread between the bid and ask prices; contains the toll free telephone number for inquiries on disciplinary actions established pursuant to section 15(A)(i); defines significant terms used in the disclosure document or in the conduct of trading in penny stocks; and contains such other information, and is in such form (including language, type size, and format), as the SEC requires by rule or regulation. Further, for sales of our securities, the broker/dealer must make a special suitability determination and receive from you a written agreement before making a sale to you. Because of the imposition of the foregoing additional sales practices, it is possible that brokers will not want to make a market in our shares. This could prevent reselling of shares and may cause the price of the shares to decline.

***Technology companies face intense competition. We will have to compete with our competitors for financing and for qualified managerial and technical employees.***

The technology industry is intensely competitive in all of its phases. Competition includes large established technology companies with substantial capabilities and with greater financial and technical resources than we have. As a result of this competition, we may be unable to become a leader in our industry and attract and retain qualified managerial and technical employees. If we are unable to successfully compete for financing or for qualified employees, our technology development and commercialization efforts may be slowed down or suspended.

***We do not expect to declare or pay any dividends.***

We have not declared or paid any dividends on our common stock since our inception, and we do not anticipate paying any such dividends for the foreseeable future.

***Volatility of Stock Price.***

Our common shares are currently publicly traded on the OTC BB exchange under the symbol KLMK. In the future, the trading price of our common shares may be subject to wide fluctuations. Trading prices of the common shares may fluctuate in response to a number of factors, many of which will be beyond our control. In addition, the stock market in general, and the market for software technology companies in particular, has experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of such companies. Market and industry factors may adversely affect the market price of the common shares, regardless of our operating performance.

### ITEM 6. SELECTED FINANCIAL DATA

Not required for smaller reporting companies.

### ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS

For the year ended December 31, 2012, the Company incurred a net operating loss of \$450,571. To date the Company has not had any revenues from operations. For the year ended December 31, 2011, the Company's primary source of funding came through the sale of certain non-core intangible assets.

The Company is dependent on obtaining additional capital or an operations partner in order to complete its mobile technology deployment and makes no warranty or assurance that it will be successful in any of these endeavors. Further, there is no assurance that the Company can continue to operate without cash flows or revenues. During the past year, the Company has relied exclusively upon interim capital financing for its continuation.

**Results of Operations** - For the year ended December 31, 2012, the Company generated a net loss of \$450,571 as compared to net income of \$179,540 for the year ended December 31, 2011. The 2012 net loss is primarily the result of expenditures on development of the Company's mobile applications and ongoing administrative expenses. The Company remains in the product development stage and generated no revenue in 2012 or 2011. During 2012, the Company's expenditures were directed at developing software for its mobile phone applications. During the summer of 2012, the Company completed a successful test of its KleverShop® application.

In May 2011, the Company entered into an agreement to sell the rights to certain IP addresses that were noncore to the Company's business and were fully amortized. The sale closed during September 2011 and the Company received proceeds of \$623,234 after paying commissions associated with the sale. Management used the proceeds to fund development costs associated with its mobile technology and to cover ongoing operating expenses.

General and administrative expenses for the year ended December 31, 2012 decreased by \$199,026 or 33.9% to \$388,042 from \$587,068 for the year ended December 31, 2011. The primary reason for the overall decrease in general and administrative expenses is due to decreased management compensation of \$182,502. Management compensation decreased to \$180,000 in 2012 from \$362,502 in 2011 as a result of decreased accruals for management compensation during the year ended December 31, 2012 coupled with the Company's CEO receiving \$131,203 in 2011 as compensation for work done in connection with the Company's sale of its IP addresses described above. Only \$37,500 of the compensation accrued during the year was paid. During the year ended December 31, 2012, the Company had decreases in legal fees, accounting fees and outside services of \$7,603, \$6,578, and \$39,442 respectively. Legal and accounting costs were higher in 2011 due to the Company having to re-audit its 2009 financial statements as a result of their former auditor being sanctioned and deregistered by the PCAOB. Outside services decreased due to the Company eliminating certain consultants who were no longer needed to facilitate the development of the Company's products. These increases were offset by higher costs for travel and SEC filing fees of \$6,020 and \$7,564, respectively. Travel costs were higher because of increased costs to attend out of town meetings with development consultants as well as other potential strategic partners. SEC filing fees were higher due primarily due to the Company restating its December 31, 2011 10-K and its March 31, 2012 10-Q.

During the year ended December 31, 2012 research and development costs decreased by 71.1% from \$27,063 in 2011 to \$7,833 in 2012. During 2012, the Company incurred less costs to develop its technology than it did in 2011; however, the decrease in R&D expenses was due primarily to the Company obtaining technological feasibility with its mobile software development and capitalizing \$100,223 as compared to \$104,720 of development costs for the year ended December 31, 2011.

Other income (expense) decreased to (\$48,368) in 2012 from \$823,672 in 2011 representing a decrease of \$872,040. In 2012, other income (expense) consisted of interest expense. During 2011, the Company generated \$623,234 of proceeds from selling certain IP addresses that were noncore to the Company's business and were fully amortized. The Company did not sell any assets during 2012. In addition, during 2011 the Company recorded a \$177,000 due to gain the cancellation of certain agreements with a private investor and an investment banking firm which resulted in the Company receiving \$9,000 in cash plus the return of 1,150,000 shares of common stock. The Company recorded \$67,566 of forgiveness of debt income in connection with the Company entering into settlement agreements with one of its creditors and due to one creditor agreeing to waive all of its finance charges during 2011.

Income tax expense decreased to \$6,328 for the year ended December 31, 2012 compared to \$30,001 for the year ended December 31, 2011 primarily due to management recording a liability of \$29,101 during the fourth quarter of 2011 relating to the Company's uncertain tax positions. Approximately \$5,328 of the 2012 income tax expense related to interest and penalties are being accrued but not paid in connection with the Company's uncertain tax positions.

**Liquidity and Capital Resources** – The Company has not received, recorded, or consolidated revenue from ongoing operations and has relied on equity transactions, loans, and proceeds from selling non-core assets to fund development of its business plan and the costs of ongoing operations. Management intends to raise additional funds through selling private placement offerings, targeting strategic partners in an effort to increase revenues, and expanding revenues through strategic acquisitions.

**Cash used by operating activities** – Cash used for operating activities totaled \$168,364 for 2012 compared with \$306,688 for 2011, a decrease of \$138,324. The decrease in 2012 for cash used by operating activities was primarily due to a decrease in net income of \$630,111 from net income of \$179,540 in 2011 to a net loss of \$450,571 for 2012. Non-cash expenses relating to shares issued for services and stock option compensation totaling \$21,220 in 2012 compared to \$28,986 in 2011; During 2011 stock returned for services not rendered and gain on sale of assets totaled \$175,100 and \$623,234 compared to \$0 for both categories in 2012.. The Company obtained debt forgiveness of \$0 in 2012 compared to \$67,566 in 2011 as a result of negotiating reductions in amounts owed with certain creditors. Accounts payable increased by \$69,729 in 2012 compared to an increase of \$30,110 for 2011. Accrued liabilities increased by \$187,888 in 2012 as compared to an increase of \$320,541 for 2011. The increase in 2012 is primarily due to increased accruals for officer compensation, uncertain tax positions and interest. At December 31, 2012, the Company had accrued \$413,250 for officer compensation. During 2012, a company controlled by the CEO was paid \$27,000 in compensation for services provided to the Company. During 2011, a company controlled by the CEO was paid \$6,750 for salary and \$131,203 in other compensation for services provided in connection with the Company's sale of its IP addresses described above.

During 2010, the Company entered into settlement agreements with certain creditors. Pursuant to the terms of the agreements, the Company had to pay off the amounts owed in the settlement agreements by March 2011. If the payments were not made, the Company had to accrue interest on the total outstanding obligation owed. The Company was not able to meet the scheduled payments in accordance with the settlement agreements. As a result at December 31, 2012, the Company had accrued interest of \$133,635 compared to \$94,475 as of December 31, 2011, an increase of \$39,160.

**Cash provided (used) by investing activities** – During the year ended December 31, 2012, the Company used cash for investing activities of (\$139,904) compared to cash provided by investing activities of \$490,940 for the year ended December 31, 2011. In 2012, the Company spent \$2,084 on equipment purchases, invested \$100,223 in capitalized software development costs, and spent \$37,597 on developing patents and trademarks for its intellectual property. In 2011, the Company received \$623,234 from the sale of the IP addresses partially offset by capitalized software development costs of \$104,720 and costs spent obtaining patents and trademarks on its intellectual property of \$27,574.

**Cash (used) provided by financing activities** – Cash provided by financing activities for 2012 totaled \$133,450 compared to cash used by financing activities of (\$7,450) for 2011. During 2012, the Company received proceeds from the sale of its common stock of \$122,000 and received \$11,450 of proceeds from officer loans. During 2011, the Company received proceeds from selling common stock of \$37,500 and repaid loans from its officers totaling \$44,950.

As of December 31, 2012, our cash position was \$3,055, compared with \$177,873 as of December 31, 2011. We anticipate continuing development and marketing expenses in future periods as the Company further develops and begins testing its technologies. We anticipate hiring additional employees for this development and the corresponding operations of the Company, but this hiring is not planned to occur prior to obtaining additional capital. The Company requires working capital principally to complete development, testing and marketing of its new mobile products and to pay for ongoing operating expenses. Currently, there are no formal commitments from banks or other lending sources for lines of credit or similar short-term borrowings. From time to time in the past, required short-term borrowings have been obtained from a principal shareholder or other related entities.

**Factors That May Affect Future Results** - Management's Discussion and Analysis contains information based on management's beliefs and forward-looking statements that involve a number of risks, uncertainties, and assumptions. There can be no assurance that actual results will not differ materially from the forward-looking statements as a result of various factors, including but not limited to the following:

- The Company may not obtain the equity funding or short-term borrowings necessary to market and launch its mobile applications.
- The product launch may take longer to implement than planned or may not be successful.

## **ITEM 8. FINANCIAL STATEMENTS**

The financial statements of the Company and supplementary data are included beginning immediately following the signature page to this report. See Item 15 for a list of the financial statements and financial statement schedules included.

## **ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE**

There are not and have not been any disagreements between the Company and its accountants on any matter of accounting principles, practices or financial statement disclosures.

On February 25, 2013, the Company filed an 8-K announcing the appointment of the new auditors, HJ & Associates, LLC.

## **ITEM 9A. CONTROLS AND PROCEDURES**

### **Evaluation of Disclosure Controls and Procedures**

The Company's Chief Executive Officer and Chief Financial Officer are responsible for establishing and maintaining disclosure controls and procedures for the Company, and have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) were not effective as of the end of the period covered by this report, based on their evaluation of these controls and procedures required by paragraph (b) of Rules 13a-15(f) and 15d-15(f), due to certain material weaknesses in our internal control over financial reporting as discussed below.

## Internal Control Over Financial Reporting

The Company's management is responsible for establishing and maintaining adequate internal controls over financial reporting for the Company. Due to limited resources, Management conducted an evaluation of internal controls based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"). The results of this evaluation determined that our internal control over financial reporting was ineffective as of December 31, 2012, due to material weaknesses. A material weakness in internal control over financial reporting is defined as a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Company's annual or interim financial statements will not be prevented or detected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those responsible for oversight of our financial reporting.

Management's assessment identified the following material weaknesses in internal control over financial reporting:

- The small size of our Company limits our ability to achieve the desired level of separation of internal controls and financial reporting. We do have a separate CEO and CFO, to review and oversee the financial policies and procedures of the Company, which does achieve a degree of separation. However, until such time as the Company is able to hire a Controller, we do not believe we meet the full requirement for separation.
- We do not have a functional audit committee.
- We have not achieved the desired level of documentation of our internal controls and procedures. When the Company obtains sufficient funding, this documentation will be strengthened through utilizing a third party consulting firm to assist management with its internal control documentation and further help to limit the possibility of any lapse in controls occurring.
- We have not achieved the desired level of corporate governance to ensure that our accounting for all of our contractual and other agreements is in accordance with all of the relevant terms and conditions. Because of our limited capital resources, we sometimes formalize our agreements with certain contractors after the work is performed when additional resources become available to pay for the services.
- We have not achieved the desired level of corporate governance with regard to identifying, measuring, and recording in a timely manner our uncertain tax positions. Because of our limited internal resources, lack of corporate governance and in-house financial expertise, we do not have the necessary process and procedures in place to track and account for our uncertain tax positions.
- We have not achieved adequate controls surrounding identifying, disclosing and accounting for all of our related party transactions. In particular, we are not in compliance with all required provisions of Item 404 of Sarbanes-Oxley.

As a result of the material weaknesses in internal control over financial reporting described above, the Company's management has concluded that, as of December 31, 2012, the Company's internal control over financial reporting was not effective based on the criteria in Internal Control - Integrated Framework issued by the COSO.

To date, the Company has not been able to add any additional members to its Audit Committee due its limited financial resources. When the Company obtains sufficient funding, Management intends to add additional members to the Audit Committee and charge them with assisting the Company in addressing the material weaknesses. The Company's lack of current financial resources makes it impossible for the Company to hire the appropriate personnel needed to overcome these weaknesses and ensure that appropriate controls and separation of responsibilities of a larger organization exist. We also will continue to follow the standards for the Public Company Accounting Oversight Board (United States) for internal control over financial reporting to include procedures that:

- o Pertain to the maintenance of records in reasonable detail accurately that fairly reflect the transactions and dispositions of the Company's assets;
- o Provide reasonable assurance that transactions are recorded as necessary to permit preparation of the financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures are being made only in accordance with authorizations of management and the Board of Directors; and
- o Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Our management determined that there were no changes made in our internal controls over financial reporting during the fiscal year 2012 that have materially affected, or are reasonably likely to materially affect our internal control over financial reporting.

This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this annual report.

### PART III

#### ITEM 10. DIRECTORS EXECUTIVE OFFICERS, PROMOTERS AND CONTROL PERSONS; COMPLIANCE WITH SECTION 16(a) OF THE EXCHANGE ACT

##### Executive Officers and Directors

The following table sets forth the name, age, and position of each executive officer and director of the Company:

Director's Name	Age	Office	Term Expires
Paul G. Begum	72	Chairman/CEO	Future shareholder meeting
Robert A. Campbell	70	COO and CFO	Future shareholder meeting
Jerry P. Wright	60	Director	Future shareholder meeting

Paul G. Begum, Founder, age 72 returned to the Board of Directors in February, 2007. Paul currently serves as Chairman and CEO. Paul has substantial entrepreneurial experience managing and owning controlling interest in HelpUSolve, LLC which operates a number of divisions with products ranging from filtered breathing masks (EnviroAir), food service industry cup liners, script writing, screen plays and theatrical productions. Paul also brings substantial and diverse fundraising abilities and negotiating skills to the Board.

Robert A. His knowledge of packaged goods manufacturing and retail sales operations bring valuable skills to Klever Marketing. Jerry has an MBA from Brigham Young University.

##### Changes to Executive Officers and Directors

None

##### Audit Committee

As of December 31, 2012, the Company did not have a functioning Audit and Compliance Committee. The Company's management is currently reviewing the Company's SEC filings and relying on outside experts to assist with this process.

##### Audit Committee Financial Expert

The Company's board of directors needs to have an "audit committee financial expert," within the meaning of such phrase under applicable regulations of the Securities and Exchange Commission, serving on its audit committee. The individual needs to be capable of (i) understanding generally accepted accounting principles ("GAAP") and financial statements, (ii) assessing the general application of GAAP principles in connection with our accounting for estimates, accruals and reserves, (iii) analyzing and evaluating our financial statements, (iv) understanding our internal controls and procedures for financial reporting; and (v) understanding audit committee functions, all of which are attributes of an audit committee financial expert and meet the experience requirements specified in the SEC's definition of "audit committee financial expert." Further, like many small companies, it is difficult for the Company to attract and retain board members who qualify as "audit committee financial experts," and competition for these individuals is significant.

**ITEM 11. EXECUTIVE COMPENSATION**

#### Board of Directors Pre-Approval of Audit and Permissible Non-Audit Services of Independent Auditors

The Board of Directors may pre-approve all audit and non-audit services provided by the independent auditors. These services may include audit services, audit-related services, tax services and other services as allowed by law or regulation. Pre-approval is generally provided for up to one year and any pre-approval is detailed as to the particular service or category of services and is generally subject to a specifically approved amount. The independent auditors and management are required to periodically evaluate the extent of services provided by the independent auditors in accordance with this pre-approval and the fees incurred to date. The Board of Directors may also pre-approve particular services on a case-by-case basis.

The Board of Directors pre-approved 100% of the Company's 2012 and 2011 audit fees, audit-related fees, tax fees, and all other fees to the extent the services occurred after May 6, 2003, the effective date of the Securities and Exchange Commission's final pre-approval rules.

**Report of Independent Registered Public Accounting Firm**

To the Board of Directors and Stockholders  
Klever Marketing, Inc.  
Salt Lake City, Utah

We have audited the accompanying balance sheet of Klever Marketing, Inc. (a Development Stage Company) as of December 31, 2012, and the related statements of operations, stockholders' equity, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Klever Marketing, Inc. (a Development Stage Company) as of December 31, 2012, and the results of its operations and its cash flows for the year then ended, in conformity with U.S. generally accepted accounting principles.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As disclosed in Note 4 to the financial statements, the Company does not generate significant revenue and has negative cash flow from operations. This raises substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 4. The financial statements do not include any adjustments that might result in the outcome of this uncertainty.

We were not engaged to audit, and we did not audit, the related statements of operations, stockholders' equity (deficit) and cash flows from inception (July 5, 1996) through December 31, 2012, and accordingly, we express no opinion or any other form of assurance on them.

Report of Independent Registered Public Accounting Firm

The Board of Directors  
Klever Marketing, Inc.  
Salt Lake City, Utah

We have audited the accompanying balance sheet of Klever Marketing, Inc. (a Development Stage Company) as of December 31, 2011, and the related statements of operations, stockholders' equity (deficit) and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Klever Marketing, Inc. (a Development Stage Company) as of December 31, 2011, and the results of their operations and cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 2, Note 3 and Note 11 to the financial statements, the Company has restated its financial statements as of December 31, 2011 and for the year ended December 31, 2011 to reclassify compensation paid to a related party and add related party disclosures and to correct an error to properly account for uncertain tax positions in accordance with Accounting Standards Codification 740, Income Taxes .

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 4 to the financial statements, the Company is in the development stage, has no current source of revenue and suffered losses from operations since inception and is dependent on financing to continue operations. These conditions raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to these matters are described in Note 4. The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classification of assets and liabilities that might result in the event the Company cannot continue in existence.

We were not engaged to audit, and we did not audit, the related statements of operations, stockholders' equity (deficit) and cash flows from inception (July 5, 1996) through December 31, 2011, and accordingly, we express no opinion or any other form of assurance on them.

**KLEVER MARKETING, INC.**  
(A Development Stage Company)  
Notes to the Financial Statements

**NOTE 1 - ORGANIZATION**

Organization and Description of Business

Klever Marketing, Inc. (the "Company") was organized under the laws of the State of Delaware in December 1989. The Company was in the development stage from 1989 to 1991. The Company was an operating company from 1992 to December 8, 1993 when it filed petitions for relief under Chapter 11 bankruptcy. The Company was inactive until July 5, 1996 when the Company merged with Klever Kart, Inc. in a reverse merger and changed its name to Klever Marketing, Inc. The Company has been in the development stage since that time.

The Company was formed for the purpose of creating a vehicle to obtain capital, to file and acquire patents, to seek out, investigate, develop, manufacture, market and distribute an electronic shopping cart for in-store advertising, promotion and media content and retail shopper services, which have potential for profit.

**NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES**

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements are as follows:

Accounting Method

The Company's financial statements are prepared in accordance with US GAAP and reflect all adjustments (all of which are normal and recurring in nature) that, in the opinion of management, are necessary for fair presentation of the financial statements.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid investments with maturities of three months or less to be cash equivalents. The Company did not have any cash equivalents as of and for the years ended December 31, 2012 and 2011.

Valuation of Long-Lived Assets

Long-lived assets such as property and equipment, software, and intangible assets with definite useful lives are reviewed for impairment when events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable or in the period in which the held for sale criteria are met. For assets held and used, this analysis consists of comparing the asset's carrying value to the expected future cash flows to be generated from the asset on an undiscounted basis. If the carrying amount of the asset is determined not to be recoverable, a write-down to fair value is recorded. Fair values are determined based on quoted market values, discounted cash flows, or external appraisals, as applicable. Long-lived assets are reviewed for impairment at the individual asset or the asset group level for which the lowest level of independent cash flows can be identified.

Fixed Assets

Fixed assets consist of property and equipment and capitalized software costs and computer equipment as of December 31, 2012 and 2011.

**KLEVER MARKETING, INC.**  
(A Development Stage Company)  
Notes to the Financial Statements

*Property and Equipment*

Depreciation and amortization are computed using the straight-line method over the estimated economic useful lives of the related assets as follows:

Computer equipment	3 years
Office furniture and fixtures	5-7 years

Upon sale or other disposition of property and equipment, the cost and related accumulated depreciation or amortization are removed from the accounts and any gain or loss is included in the determination of income or loss.

Expenditures for maintenance and repairs are charged to expense as incurred. Major overhauls and betterments are capitalized and depreciated over their estimated economic useful lives. Depreciation expense was \$319 and \$0 for the years ended December 31, 2012 and 2011.

*Capitalized Software Development*

The Company capitalizes software development costs incurred from the time technological feasibility has been obtained until the product is generally released to customers. Amortization of capitalized software begins when the products are available to customers and is done using the straight-line method over the remaining estimated economic life of the product. The Company achieved technological feasibility with regard to its mobile phone technology during the fourth quarter of 2010. As of December 31, 2012 and 2011, the Company had capitalized software development costs of \$291,343 and \$191,120, respectively. No amortization was recorded for the years ended December 31, 2012 and 2011.

Revenue Recognition

The Company is currently in the development stage and has no revenues from its operations.

Concentration of Credit Risk

The Company has no significant concentrations of credit risk.

Earnings Per Common Share

The computations of basic and fully diluted earnings per share of common stock are based on the weighted average number of common shares outstanding during the period of the financial statements, plus the common stock equivalents which would arise from the exercise of stock options and warrants outstanding during the period, or the exercise of convertible preferred stock. For the period ended December 31, 2011, common stock equivalents related to the conversion of preferred rights have been included in calculation of diluted earnings per share as shown in the table below. Common stock equivalents have not been included in the computations for the period ended December 31, 2012 because they are anti-dilutive.

**Intangibles**

Intangible assets, consisting of patents and trademarks, are amortized on a straight-line basis over periods ranging from 5-20 years from the date the patent or trademark is issued. Intangible assets with indefinite lives are tested for impairment on an annual basis or when the facts and circumstances suggest that the carrying amount of the assets may not be recovered. At December 31, 2012, intangible assets have a cost of \$65,721, accumulated amortization of \$3,051, and had a net book value of \$62,670. During the year ended December 31, 2012, the Company wrote off intangible assets totaling \$775,045 that were fully amortized that were no longer being utilized by the Company. As of December 31, 2011, intangible assets had a cost of \$803,169, accumulated amortization of \$775,045 and had a net book value of \$28,124.

**Income Taxes**

The Company accounts for income taxes pursuant to ASC 740, *Income Taxes* ("ASC 740"). Under this accounting standard, deferred tax assets and liabilities are determined based on temporary differences between the bases of certain assets and liabilities for income tax and financial reporting purposes. The deferred tax assets and liabilities are classified according to the financial statement classification of the assets and liabilities generating the differences. Given the Company's history of losses, the Company maintains a full valuation allowance with respect to any deferred tax assets.

ASC 740 requires a company to determine whether it is more likely than not that a tax position will be sustained upon examination based upon the technical merits of the position. If the more-likely-than-not threshold is met, a company must measure the uncertain tax position to determine the amount to recognize in the financial statements. Our uncertain tax positions relate to certain state tax issues for which we have recorded an estimated current liability for in the accompanying financial statements at December 31, 2012 and December 31, 2011. There has been no significant change in the unrecognized tax benefit through December 31, 2012.

**KLEVER MARKETING, INC.**  
(A Development Stage Company)  
Notes to the Financial Statements

The Company did not have any uncertain tax positions for which it is reasonably possible that the total amount of unrecognized tax benefits will significantly increase or decrease within the next 12 months. The Company includes interest and penalties arising from the underpayment of income taxes in the statements of operations in the provision for income taxes. As of December 31, 2012 and 2011, the Company had \$5,328 and \$636 of accrued interest and penalties related to uncertain tax positions.

The components of income tax expense are as follows for the years ended December 31, 2012 and 2011, respectively.

	December 31,	
	2012	2011
Current	\$ 6,328	\$ 30,001
Deferred	—	—
<b>Total</b>	<b>\$ 6,328</b>	<b>\$ 30,001</b>

The Company's deferred income tax asset and the related valuation allowance are as follows at December 31, 2012 and 2011, respectively. The deferred tax asset was calculated using a U.S. statutory tax rate of 34%.

	December 31,	
	2012	2011
Deferred tax assets - current:		
Accrued interest	\$ 49,846	\$ 35,239
Accrued compensation	154,142	100,990
	203,988	136,229
Deferred tax assets - long-term:		
Net operating loss carryforwards	5,287,836	5,645,717
Total deferred income tax assets	5,491,824	5,781,946
Valuation allowance	(5,491,824)	(5,781,946)
<b>Total</b>	<b>\$ —</b>	<b>\$ —</b>

A reconciliation of provision (benefit) for income taxes provided at the federal statutory rate (34% for fiscal years 2012 and 2011) to actual provision for income taxes is as follows:

	December 31,	
	2012	2011
Benefit (provision) for income taxes computed at federal statutory rate	\$ 151,043	\$ (71,244)
State income taxes, net of federal benefit	14,660	(6,915)
Other	118,091	331,503
Valuation allowance	(290,122)	(283,345)
Provision for Income taxes	<b>\$ (6,328)</b>	<b>\$ (30,001)</b>
Effective tax rate	<b>1.42%</b>	<b>14.32%</b>

As of December 31, 2012, the Company had net operating loss carry-forwards for federal income tax reporting purposes of approximately \$14.9 million that may be offset against future taxable income through 2032. The Company has state net operating loss carry-forwards of \$5.7 million. Current tax laws limit the amount of loss available to be offset against future taxable income when a substantial change in ownership occurs. Therefore, the amount available to offset future taxable income may be limited. No tax benefit has been reported in the financial statements because the Company believes there is a 50% or greater chance that the carry-forwards will expire unused. Accordingly, the potential tax benefits of the loss carry-forwards are offset by a valuation allowance of the same amount.

**KLEVER MARKETING, INC.**  
(A Development Stage Company)  
Notes to the Financial Statements

The Company files income tax returns in the U.S. federal and Utah jurisdictions. Tax years 2009 to current remain open to examination by U.S. federal and state tax authorities.

Research and Development

The Company continues to develop additional technology which facilitates the use of in-store advertising and coupon services through various technologies. As time and technology have progressed, the system being developed by the Company comprises mobile and other state of the art technology that facilitates retailers and package good companies providing "product specific" point-of-purchase advertising to its customers using proprietary software. The Company is currently developing mobile smart phone technology that will provide similar functionality to the Klever-Kart System.

For the years ended December 31, 2012 and 2011, the Company incurred costs of \$7,833 and \$27,063 respectively, for research and development of the technology involved with developing its technologies.

Fair Value of Financial Instruments

The Company has adopted ASC 820-10-50, *Fair Value Measurements*. This guidance defines fair value, establishes a three-level valuation hierarchy for disclosures of fair value measurement and enhances disclosure requirements for fair value measures. The three levels are defined as follows: Level 1 inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets. Level 2 inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument. Level 3 inputs to valuation methodology are unobservable and significant to the fair measurement.

In determining fair value, the Company utilizes observable market data when available, or models that incorporate observable market data. In addition to market information, the Company incorporates transaction-specific details that, in management's judgment, market participants would take into account in measuring fair value.

In arriving at fair-value estimates, the Company utilizes the most observable inputs available for the valuation technique employed. If a fair-value measurement reflects inputs at multiple levels within the hierarchy, the fair-value measurement is characterized based upon the lowest level of input that is significant to the fair-value measurement.

The carrying amounts reported in the accompanying balance sheets as of December 31, 2012 and 2011 for cash and current liabilities each qualify as financial instruments and are a reasonable estimate of fair value because of the short period of time between the origination of such instruments and expected realization and their current market rate of interest. The carrying value of notes payable does not materially value because negotiated terms and conditions are consistent with current market rates as of December 31, 2012 and 2011.

**Recently Issued Accounting Pronouncements**

In July, 2012 the FASB issued ASU 2012-02, *Intangibles—Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment*. This ASU gives an entity the option to first assess qualitative factors to determine whether it is necessary to perform the quantitative impairment test for indefinite-lived intangible assets other than goodwill. The amendments are effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012.

Notes to the Financial Statements

**NOTE 3 - RESTATEMENT**

Klever Marketing, Inc. restated its financial statements as of and for the year ended December 31, 2011. The Company's decision to restate the aforementioned financial information was made on August 9, 2012 as a result of management's identification of an error related to the accounting for its uncertain tax positions and an error related to the classification of compensation paid to a related party for the year ended December 31, 2011.

The errors relate to management not identifying that the Company had uncertain tax positions as of December 31, 2011 that met the more-likely-than-not threshold for which the Company had not accrued liabilities. Upon discovering the error, management has measured the uncertain tax positions and recorded liabilities to reflect the impact. In addition, the Company incorrectly netted compensation paid to a related party against its gain on sale of assets resulting in the gain on sale of assets and general and administrative expenses being understated for the year ended December 31, 2011.

The Company's internal controls were not designed or operating effectively to ensure that all uncertain tax positions were identified, evaluated, and when appropriate, measured and recorded in the Company's financial statements and that all related party transactions were accounted for and properly disclosed in the financial statements. As a result the Company's income tax expense, gain on sale of assets and general and administrative expense were misstated in the Statement of Operations for the year ended December 31, 2011. The effect of this error on the Statements or Operations for both of the aforementioned periods is to decrease the Company's net income by \$29,101 and to increase the Company's gain on sale of assets and general and administrative expenses by \$131,203.

The December 31, 2011 balance sheet and the statements of operations and statements of cash flows for the year ended December 31, 2011 have been restated as follows:

**KLEVER MARKETING, INC.**  
(A Development Stage Company)  
Notes to the Financial Statements

**NOTE 4 - GOING CONCERN**

As shown in the accompanying financial statements, the Company generated a net loss of \$450,571 for the year ended December 31, 2012 primarily as a result of ongoing operational expenses of the Company. The Company did not generate any revenue from product sales for the years ended December 31, 2012 and 2011. As of December 31, 2012, the Company's current and total liabilities exceeded its current assets by \$1,651,559. These factors, as well as the uncertain conditions that the Company faces relative to capital raising activities, create substantial doubt as to the Company's ability to continue as a going concern. The Company is seeking to raise additional capital through private placement offerings and is targeting strategic partners in an effort to finalize the development of its products and begin generating revenues. The ability of the Company to continue as a going concern is dependent upon the success of future capital offerings or alternative financing arrangements and expansion of its operations. The accompanying financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern. As of December 31, 2012, the Company had \$3,055 of cash available on hand. The Company will require additional funding during the next twelve months to finance the growth of its current operations and achieve its strategic objectives. Management is actively pursuing additional sources of financing sufficient to generate enough cash flow to fund its operations through 2013. However, management cannot make any assurances that such financing will be secured.

**NOTE 5 – ACCRUED LIABILITIES**

Accrued liabilities consist of the following as of December 31, 2012 and 2011.

	December 31,

Total third party notes payable	15,000	15,000
Total notes payable	\$ 26,450	\$ 15,000

During the year ended December 31, 2012, the Company's CEO and CFO provided cash advances to cover certain operating expenses totaling \$11,450. These advances are non-interest bearing and are due on demand.

**NOTE 7 - PREFERRED STOCK**

Authorized Shares

In accordance with the Company's bylaws, the Company has authorized a total of 2,000,000 shares of preferred stock for all classes. As of December 31, 2012 and 2011, there were 346,910 and 312,559 preferred shares issued and outstanding, respectively. As of December 31, 2012, all of the Company's outstanding preferred shares are owned by a Company that is controlled by the Company's CEO.

In March, 2011, management realized that the preferred stock dividend that was paid in 2008 had resulted in the Company issuing more shares of Class A and Class B shares than were authorized pursuant to the Board resolution that was passed in June 2002. On April 14, 2011 the board of directors approved an increase to the authorized number of shares of preferred stock as described below.

Preferred Stock Dividends

As of December 31, 2012, the Company had accrued and unpaid preferred stock dividends totaling \$77,978 relating to dividends for the year ended December 31, 2012.

As of December 31, 2011, the Company had accrued and unpaid preferred stock dividends totaling \$323,968 relating to dividends for the year ended December 31, 2011.

Notes to the Financial Statements

Class A Voting Preferred Stock

On February 7, 2000, the Board of Directors authorized and established "Class A Voting Preferred Stock" ("Class A Shares") as a class of its \$.01 par value, 2,000,000 shares authorized, preferred stock. Class A Shares consisted of 125,000 shares designated as Series 1 shares. On May 20, 2002, the Board of Directors amended the number of authorized shares of Class A voting preferred stock to 55,000 shares. On April 14, 2011, the Board of Directors increased the number of authorized Class A Voting Preferred shares to 150,000.

Initially, Class A Shares were convertible into Common Stock at an initial conversion price of \$2.60 (subject to adjustment). In November 2011, the board passed a resolution and clarified that the adjusted conversion price meant that each share of Class A preferred stock is convertible into 99.035 shares of common stock upon conversion. Holders of Class A Shares are entitled to receive dividends at the rate of \$2.20 per share per annum, payable semi-annually. Dividends are cumulative and may be paid in cash or in kind through the distribution of .0425 Class A Shares, Series 1, for each outstanding Class A Share, on each dividend payment date. In addition, each holder of Class A Shares is entitled to receive, when and as declared, a dividend equal to each dividend declared and paid on the shares of Common Stock, on a share for share basis.

Class A Shareholders shall be entitled to one vote for each share of Common Stock into which such Class A Shares could then be converted, and shall have voting rights and powers equal to that of a holder of Common Stock. The Holders of Class A Shares shall vote with the holders of Common Stock and not as a separate class.

Class A Shares carry a liquidation preference of \$26.00 per share plus any accrued but unpaid dividends on such shares, if any, and adjusted for combinations, splits, dividends or distributions of shares of stock with respect to such shares.

The Class A Shares shall be redeemable by the Company, in whole or in part, at the option of the Board of Directors of the Company, at any time and from time to time on or after July 1, 2002. The redemption price shall be \$26.00 per share together with accrued but unpaid dividends on such shares, if any.

In November 2011, the board passed a resolution and clarified that the adjusted conversion price meant that each share of Class A preferred stock is convertible into 64.754 shares of common stock upon conversion. Holders of Class B Shares are entitled to receive dividends at the rate of \$1.70 per share per annum, payable semi-annually. Such dividends shall be cumulative and may be paid in cash or in kind through the distribution of .0425 Class B Shares, of the same Series for which the dividend is accrued, for each outstanding Class B Share, on each dividend payment date. In addition, each holder of Class B Shares is entitled to receive, when and as declared, a dividend equal to each dividend declared and paid on the shares of Common Stock, on a share for share basis.

Class B Shareholders shall be entitled to one vote for each share of Common Stock into which such Class B Shares could then be converted and shall have voting rights and powers equal to the voting rights and powers of a holder of shares of Common Stock. The holders of Class B Shares shall vote with the holders of shares of Common Stock and not as a separate class.

Class B Shares shall carry a liquidation preference of \$17.00 per share plus any accrued but unpaid dividends on such shares, if any, and adjusted for combinations, splits, dividends or distributions of shares of stock with respect to such shares. The Class B Shares shall be redeemable by the Company, in whole or in part, at the option of the Board of Directors of the Company, at any time and from time to time on or after March 24, 2004 for Series 1, and such date as determined by the Board of Directors for each additional Series. The redemption price shall be \$17.00 per share together with accrued but unpaid dividends on such shares, if any.

**KLEVER MARKETING, INC.**  
(A Development Stage Company)  
Notes to the Financial Statements

The weighted average grant-date fair value of options granted during the year ended December 31, 2012 was \$0.09. The Company did not issue any stock options during the year ended December 31, 2011.

Outstanding and exercisable options presented by price range as of December 31, 2012 are as follows:

Exercise Price	Options Outstanding			Weighted Average Exercise Price	Options Exercisable	
	Number of Options Outstanding	Weighted Average Remaining Life (Years)	Weighted Average Exercise Price		Number of Options Exercisable	Weighted Average Exercise Price
\$ 0.06	125,000	0.25	\$ 0.06	125,000	\$ 0.06	

The estimated fair value of the Company's stock options is amortized over the options' vesting period on the straight-line basis. The Company recognized the following the equity-based compensation expense and benefits during the year ended December 31, 2012 and 2011:

	December 31	
	2012	2011
Stock-based compensation expense	\$ 14,420	\$ -

As of December 31, 2012, there was no unrecognized compensation cost associate with stock options issued by the Company and there was no intrinsic value associated with the Company's stock options as the fair value of the Company's stock was lower than the option price.

**NOTE 10 - LITIGATION AND CONTINGENT LIABILITIES**
